

REFLECTIVE LOG

Reflection on your teaching- Impact on pupil progress over time.

There is an expectation on all phases of placement that you will keep an ongoing reflective log of impact on pupil progress. UoC Partnership has not prescribed a format for this log as we recognise that it will vary in each different context and phase. The cycle above is to be used to remind trainees of each reflection area- a starter for discussion with your mentor.

Alongside this log we expect trainees to develop a system of annotating session plans to help track progress. An exemplar has been included in this TPP guidance
