CUMBRIA

TAKE YOUR NEXT STEP WITH US.

**2024/25
POSTGRADUATE
PROSPECTUS**

CARLISLE. AMBLESIDE. LANCASTER. LONDON. BARROW.

WELCOME FROM THE VICE-CHANCELLOR

Firstly, I am delighted that you are considering a life-changing investment into your future. At the University of Cumbria, we are focused on transforming lives through learning, applied research, and practice – both for current and future generations.

We are committed to delivering quality higher education throughout the county of Cumbria and beyond, empowering students with advanced skills and knowledge that can be effectively applied in the workplace.

Our postgraduate teaching is informed by industry insights and research-active academics. We offer flexible modular learning options, allowing you to manage your studies around work, family, or life commitments. You will gain knowledge and experience in a safe space through critical exploration, and through interaction with our academic institutes, centres, and networks.

With headquarters in the incredible county of Cumbria, we offer rewarding places for student communities to nurture academic learning and passion through practice-based and applied research methods in fantastic locations.

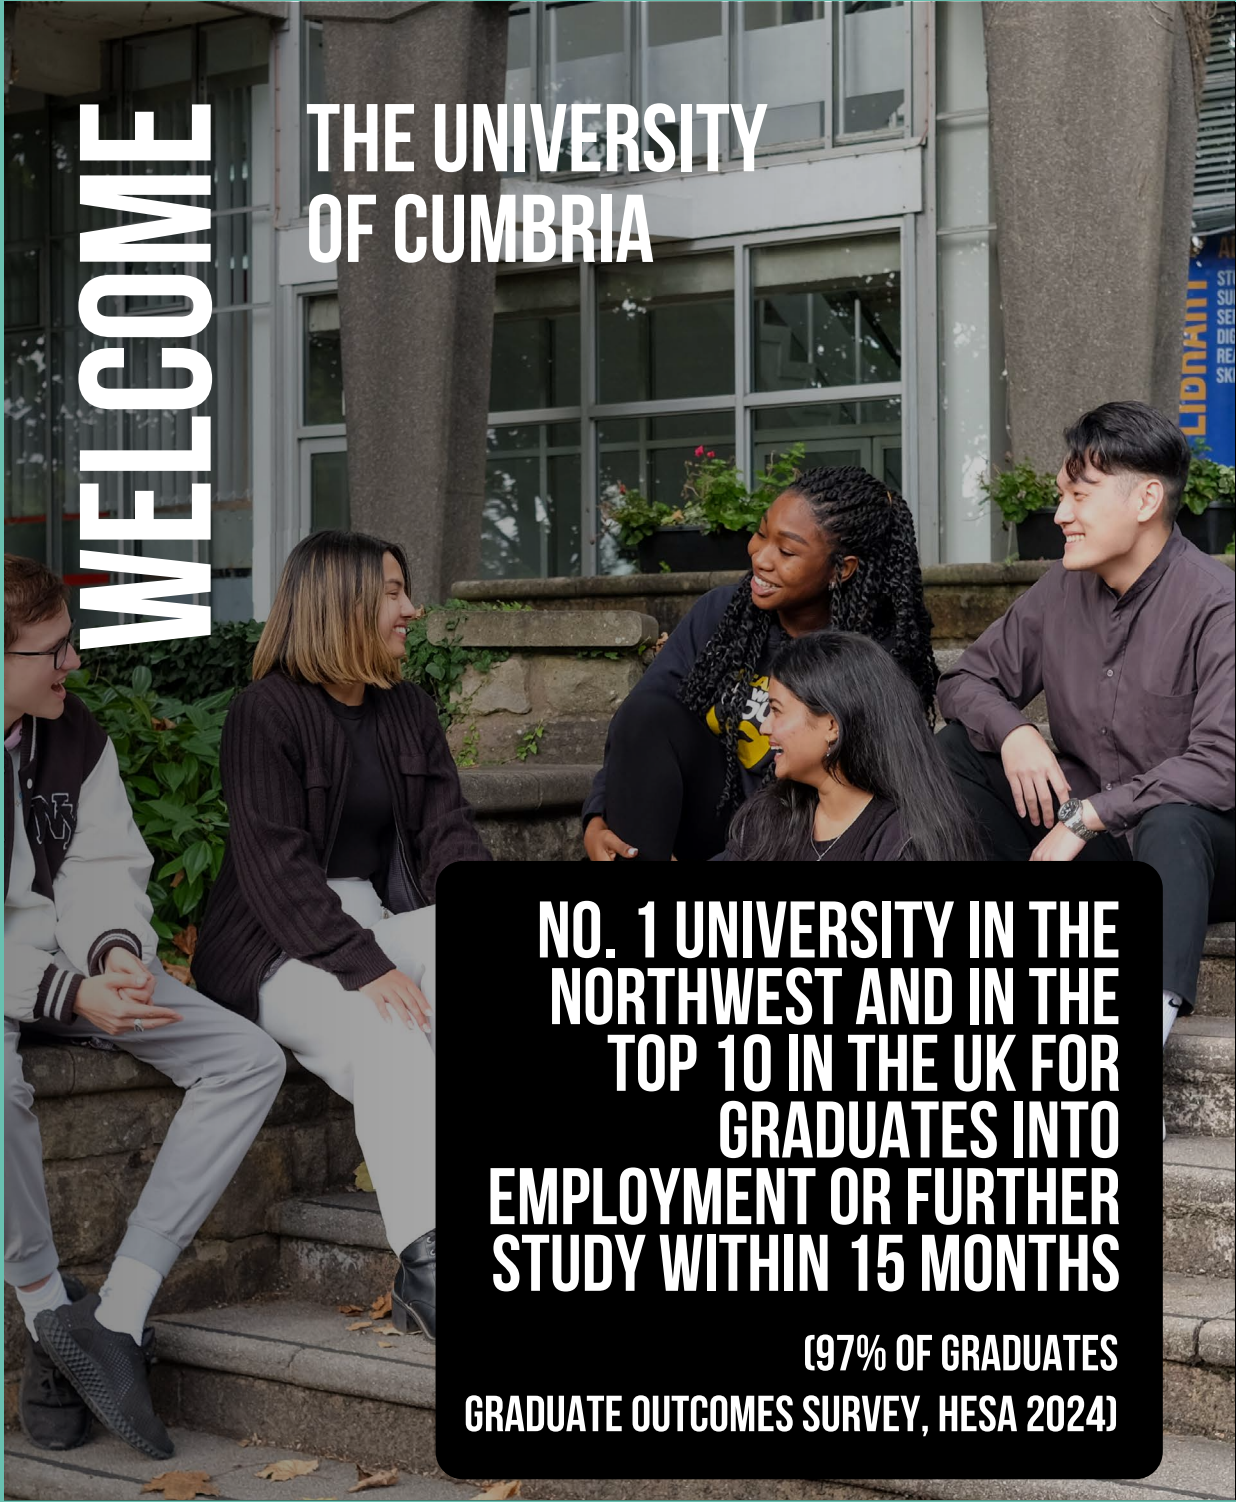

Choosing a postgraduate course opens new and exciting doors, no matter where you choose to start or continue your career. We want to be part of your journey; we encourage you to explore our postgraduate opportunities and discover how you can develop your career further at the University of Cumbria.

I wish you the best of luck with your studies and hope to meet you at your graduation.

Professor Julie Mennell, PhD

HERE FOR YOU

Transform Your Future

Ready for a thrilling adventure? There's a whole new world to be discovered as a postgraduate! Whether it's unlocking career opportunities, changing direction or studying something that truly inspires you, The University of Cumbria is here to support you. Together, we'll transform your future career and help you get the most out of your postgraduate experience.

At the University of Cumbria, you'll become part of a welcoming, vibrant community of like-minded individuals within a dynamic and supportive environment. You'll be taught in small groups by expert academics who are passionate about their subjects and provided with opportunities to network with industry professionals.

You'll be inspired, stretched and challenged to attain your professional goals and have access to support for your health, wellbeing and personal development.

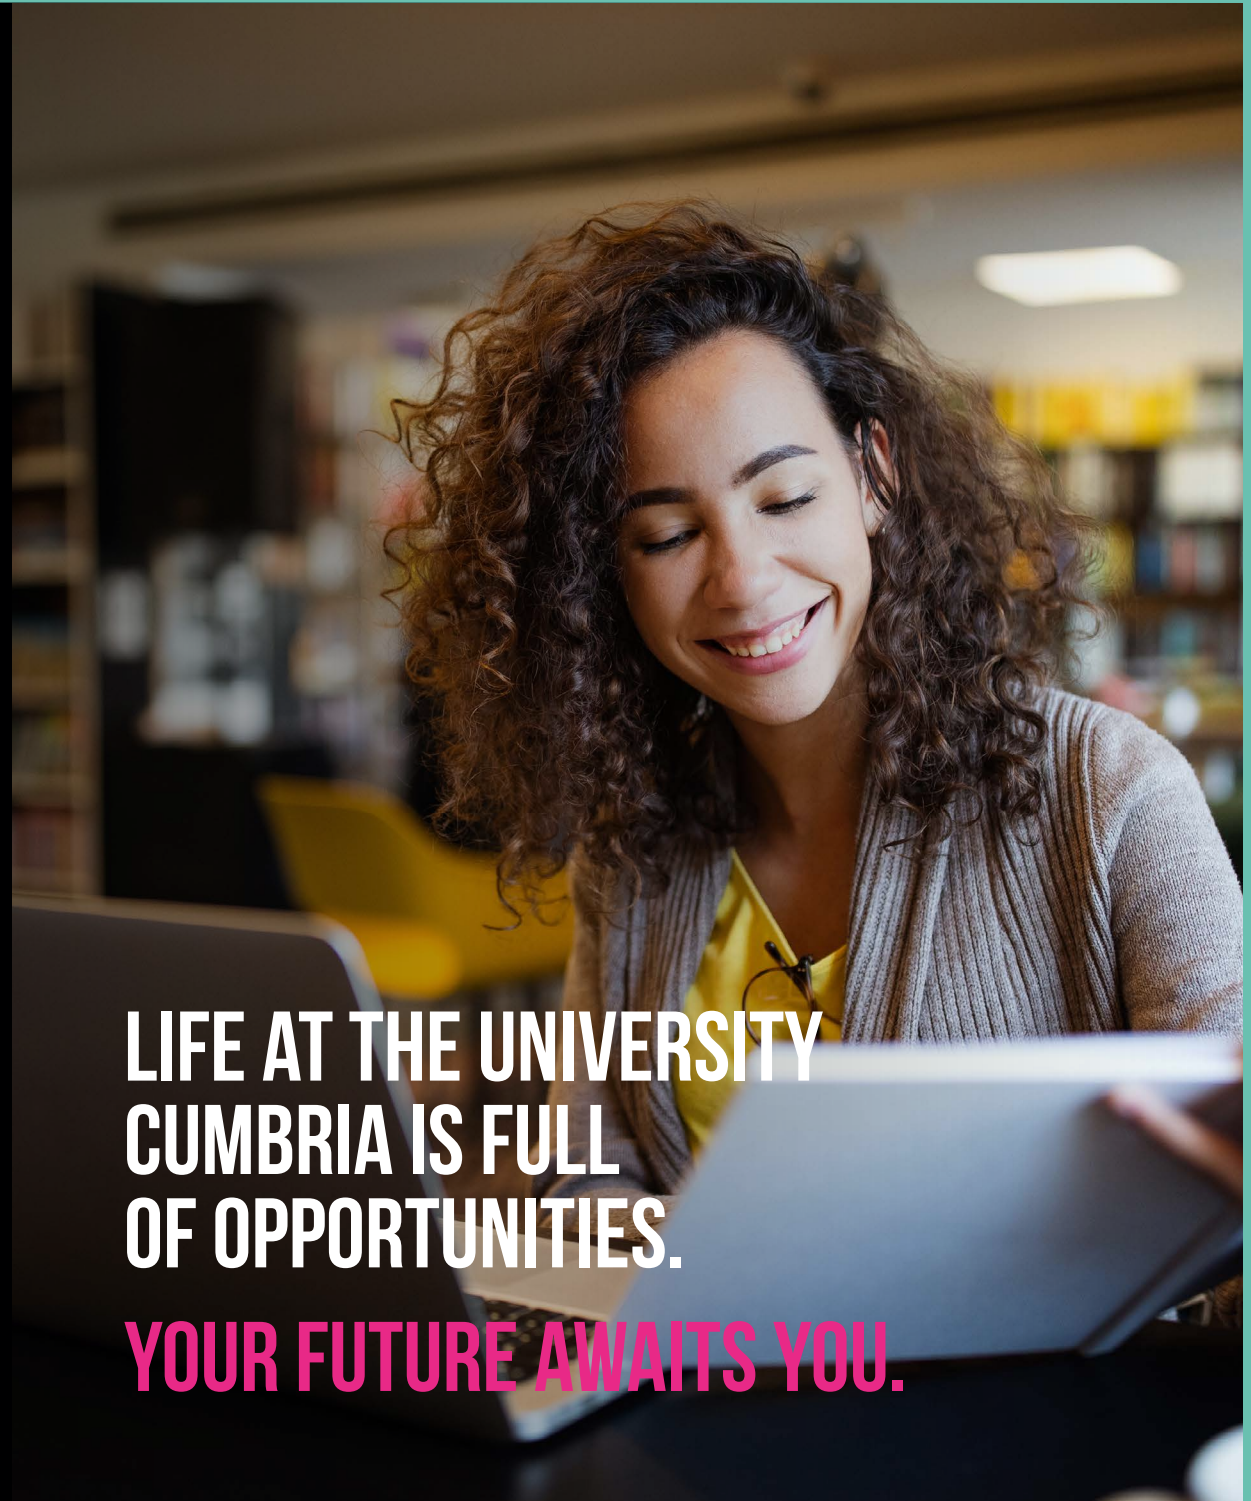

Ready for the next step in your life? Embarking on postgraduate study is a life-changing investment in yourself and your future.

LET'S GET STARTED ON THIS EXCITING JOURNEY

LIFE AT THE UNIVERSITY CUMBRIA IS FULL OF OPPORTUNITIES.

YOUR FUTURE AWAITS YOU.

WHY CUMBRIA?

BE PART OF SOMETHING SPECIAL, WHETHER THAT'S CONDUCTING GROUND-BREAKING RESEARCH, MAKING A POSITIVE IMPACT ON PEOPLE'S LIVES, OR CHANGING THE WORLD!

There is an array of postgraduate study options to choose from, including full-time, part-time, research, and taught courses.

Great Reasons to Choose Cumbria

REAL-WORLD EXPERIENCE

Developing your practical skills for the real world is our top priority. Our courses offer work-integrated learning, such as placements, live-briefs, project-based work, and internships. You'll gain hands-on experience that will give you an edge in your career.

INDUSTRY NETWORKING

We have strong partnerships with widely known associations, governing bodies and major businesses on a local, national and global scale, including BAE Systems, BBC, Rolls Royce, and the NHS. These partnerships provide opportunities to build your professional network.

INDUSTRY RECOGNISED COURSES

Our courses are designed and delivered by industry experts and many are accredited or approved by academic and industry professional bodies. You can therefore be confident that our courses are highly regarded and will increase your employability.

FLEXIBLE COURSE OPTIONS

Our flexible courses enable you to study at your own pace alongside work and other life commitments. You will gain the critical skills, knowledge and qualifications to succeed and progress in your chosen career.

PERSONAL STUDY GUIDANCE

We have the advantages of a large academic institution, but in more intimate and bespoke settings, encouraging confidence and personal growth. Our academics get to know you as an individual and offer personalised guidance.

GREAT EMPLOYABILITY & CAREER SUPPORT

We provide personalised support to keep you on track to achieve your career goals. We are making a global impact, driving positive change and innovation to help transform people's lives. Whatever your future ambitions, we provide guidance for up to three years after you graduate.

IMPACTFUL RESEARCH & INNOVATION

Built upon 150 years of higher education, our research delivers real positive change on an international scale. We are making a global impact, driving positive change and innovation to help transform people's lives.

TAUGHT BY WORLD-CLASS ACADEMICS

Our teaching is led by practice, industry and research-informed academics. With real-world experience, strong industry links and involvement in cutting-edge research, our academics are renowned experts in their fields.

INVESTING IN YOUR FUTURE

WE ARE CONSTANTLY
**INVESTING IN YOUR
FUTURE** BY DEVELOPING
OUR CAMPUSES AND
ENHANCING THE
ENVIRONMENT IN WHICH
YOU LEARN, STUDY AND
ULTIMATELY ACHIEVE.

Recent investments into new,
leading-edge facilities include:

Research Facilities

State-of-the-art scientific teaching and
research laboratories at our Fusehill Street
campus in Carlisle.

Sustainable Development

An environmentally sustainable teaching
block at our Lancaster campus.

Accommodation Modernisation

Redevelopment of our Ambleside campus
with bespoke, modern accommodation.

THE PEARS CUMBRIA SCHOOL OF MEDICINE

In partnership with Imperial College London, the University of Cumbria will be opening The Pears Cumbria School of Medicine, uniting our expertise in the education of nurses, midwives, and allied health professionals with Imperial's reputation as one of the world's best medical schools. The development and launch of the medical school has been supported by a £5 million donation from Pears Foundation.

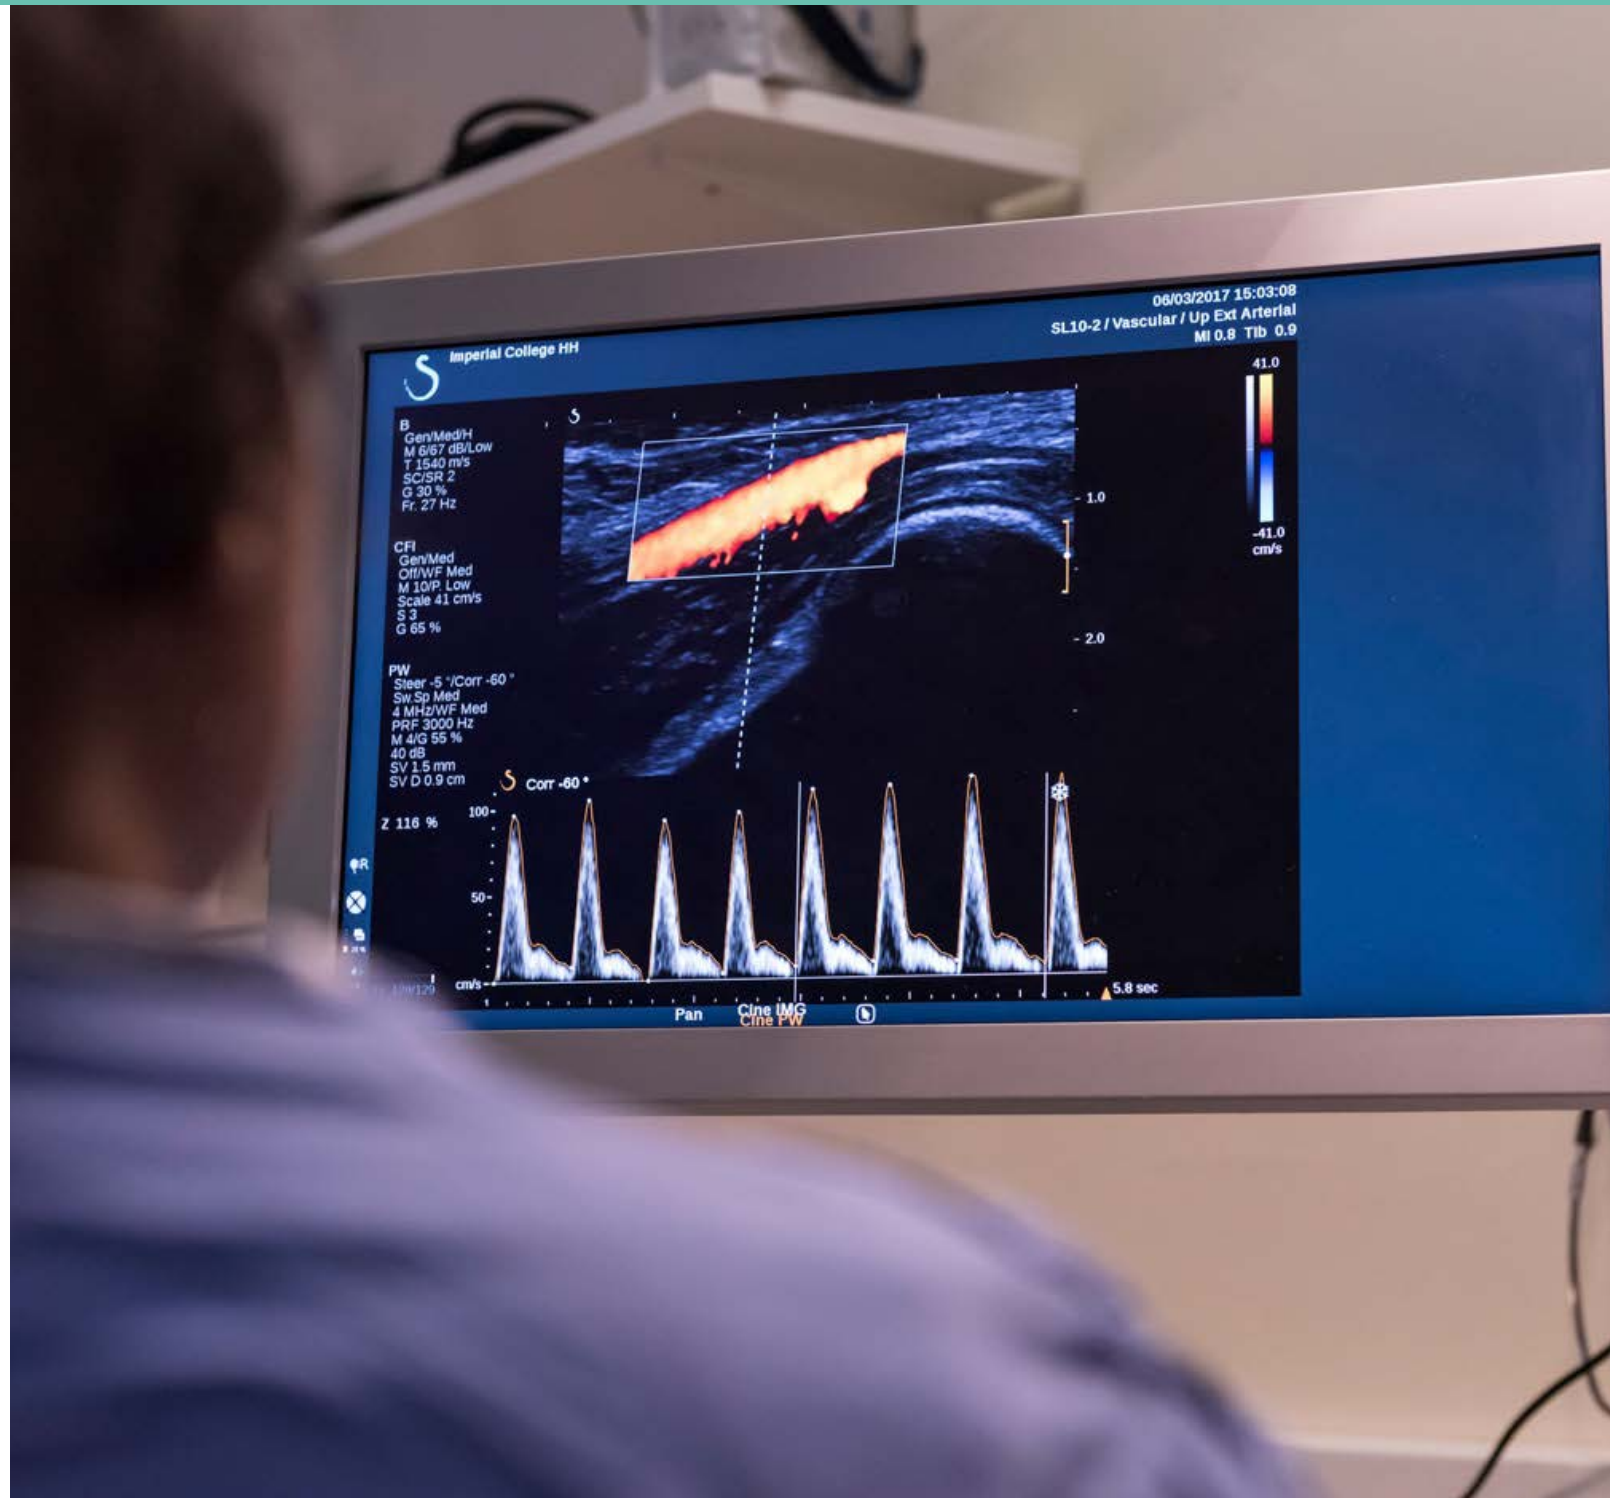

If you are set on becoming a future doctor and pursuing a career in medicine, the Pears Cumbria School of Medicine opens in Autumn 2025 and will offer a bespoke four-year medical degree, co-created with regional NHS partners, to train compassionate, adaptable, and innovative doctors who meet the needs of residents in Cumbria and the North West.

Visit cumbriamed.ac.uk for more information

The Pears Cumbria School of Medicine

A partnership between

IMPERIAL

“ THE CAMPUS AND WIDER BARROW LEARNING QUARTER WILL BE TRANSFORMATIONAL TO LEARNERS WHO WILL ACCESS HIGHER EDUCATION AND CONTRIBUTE TO THE AREA'S FUTURE PROSPERITY AND GROWTH. ”

University of Cumbria Vice Chancellor, Professor Julie Mennell

BARROW LEARNING QUARTER

Cumbria is home to a thriving advanced manufacturing hub, with our new Barrow-in-Furness campus set to build on this with degree programmes that are aligned with the needs of local employers.

The campus will be positioned at the heart of the Barrow Learning Quarter and is one of seven projects being developed as part of the Brilliant Barrow programme that will transform the area and ensure it thrives as a great place to live, work, and visit.

In recognition of Barrow's historic and ongoing involvement in the marine and defence industry, our new campus building will echo the shape of a submarine.

In partnership with:

BAE SYSTEMS

CARLISLE CITADELS CAMPUS

Our latest transformational project will see the construction of a new flagship campus within the city of Carlisle. Our new campus in the heart of the city centre will boost the vibrancy and vitality of Carlisle and the wider region and provide accessible, flexible teaching and academic facilities that are digitally advanced.

The development will include a modern, multi-purpose, 200-seater lecture theatre as well as a café, exhibitor space, and the Carlisle Business Exchange Centre.

RESEARCH

Postgraduate Research

Undertaking a postgraduate course enables you to develop your knowledge and advance your specialist skills. This in turn will boost your career prospects.

FIND OUT MORE

Areas of Study

Our five specialist areas offer a range of flexible, multidisciplinary courses. Each department is home to expert academics who not only have a wealth of professional experience but are committed to helping you achieve your dream career.

HEALTH

The home of health, social care, sport, and psychology, where you can develop your skills and make a significant difference to other people’s lives.

ARTS

Calling all creatives! This is the place where you can refine your craft in collaboration with industry experts and turn your artistic dreams into reality.

SCIENCE & ENVIRONMENT

Whether your passion is science, conservation, forestry, or outdoor studies, our excellent facilities and locations are the ideal place to expand your knowledge.

BUSINESS, INDUSTRY & LEADERSHIP

Lay your pathway to success as a future manager, leader, peacekeeper, or law enforcer.

EDUCATION

With an outstanding reputation spanning more than 100 years, we are a well established, leading provider of teacher training and education programmes in the UK.

ENGINEERING & COMPUTING

We are the home of the inventors and the innovators. Delivering innovation and critical solutions to society’s urgent needs across renewables, transport, decarbonisation and medical technologies.

OUR PARTNERSHIPS

Partner Collaborations

The University of Cumbria collaborates with a wide range of partners to share resources and knowledge that will further enrich your experience.

We believe that close partner collaborations positively impact both our students and the wider region. We are working with the National Trust on the development and delivery of new courses, shaping the direction of the Northern Powerhouse campaign, and raising the profile of Carlisle to make it a better place to live, work, invest and visit.

LIFE AT CUMBRIA

Careers & Development

We know how important your career is to you.

That's why we are committed to boosting your job prospects and ensuring that your postgraduate journey is as smooth as possible.

At every campus, we offer a range of support services, including careers and employability events, workshops, drop-ins and advice on career management, skills development, and how to find work opportunities.

You can access our services via the careers hub My Career Enriched, the Student Enquiry Point, by phone, and online.

Student Enterprise

Are you an aspiring entrepreneur looking to chase your dream whilst studying? The Careers and Employability Service at the University of Cumbria can help! From start-up advice, funding opportunities, marketing options, pricing matters and more – we can guide you through every stage of setting up and growing your business. Whatever your level of experience, we are here to help you achieve your dream business and career goals.

“

THEY WERE REALLY HELPFUL IN FINDING MY SKILLS AND HOW BEST TO SHOWCASE MYSELF TO FUTURE EMPLOYERS.

Polly, Working with Children & Families,
University of Cumbria

”

My Career Enriched

Access the Careers and Employability service from the day you arrive, throughout your studies, and for up to three years after you graduate.

You'll be able to:

- Search for graduate jobs, part-time work, work experience, industry placements and paid internships.
- Book one-to-one advice and guidance appointments and practice interviews.
- Search for and book onto careers fairs and employability events.
- Send in your CV, cover letter or application form for tailored feedback.
- Complete mini online courses in Pathways to improve your employability skills.
- Attend practical workshops on building and enhancing your CV, applications, interviews, success in your sector, options with your degree, job search skills, business start-ups, freelancing and much more.

FIND OUT MORE

Student Services

£ FINANCE

Worried about money? We're here for you. Our confidential advisory service is free for applicants and students.

With expert advisers across the university, we can provide help and information on a wide range of issues, such as funding eligibility and student loans. If you need any support in managing your money, we can also help you to plan your finances.

HEALTH & WELLBEING

We all go through times where we need a helping hand or someone to listen to our problems. Personal, emotional, and psychological issues can impact your ability to study.

Your wellbeing is very important to us, which is why our Mental Health and Wellbeing team are on hand to help and support you.

DISABILITY

We are all unique individuals who have our own ways of learning. Our aim is to provide a supportive environment in which everyone can flourish.

We actively encourage applications from disabled students. Designed to provide any extra support needed to excel in your studies, we offer students an individualised SpLD action plan, alongside other services that enable those with a disability or specific learning difficulty to access their chosen course.

STUDENT LIFE

Our Community

Choosing to undertake a postgraduate course can feel like a big step. At the University of Cumbria, we know that having a supportive and welcoming community matters. We are just as excited for you to be part of our wonderful community as we are to guide you on your path to success.

Whatever your interests, you'll find a society or group to immerse yourself in and meet like-minded people.

Supporting Local Communities

We are dedicated to helping our local communities thrive. Through hosting charity fundraisers, supporting local festivals, and running our Young Care Leavers programme, we continuously foster the development of the communities to which we belong.

Our communities, which are surrounded by inspiring and innovative businesses, offer valuable opportunities for you to get involved.

Equality, Diversity & Inclusion

At the University of Cumbria, we believe that every individual deserves to have equal opportunities. We welcome diversity and aim to foster inclusive environments so that all students can enjoy their time at university and achieve their career goals.

Whether it's diverse reading lists, stalls at our local Pride events, or free courses to educate students and staff on equality, we strive to continuously review and improve the environments in which our students live and work.

University of Cumbria Students' Union

Led by students for students, the UCSU's mission is to represent and support you in every way possible and to enhance your student experience at Cumbria.

Once you become a student at the University of Cumbria, you become a member of our vibrant and active University of Cumbria Students' Union (UCSU).

Whether you need study advice, are looking to meet new people, or want to get involved and make a difference to the university, the UCSU is here for you. Visit: www.ucsu.me to find out more.

Groups & Societies

Continue a hobby you love or explore a new interest. Our wide range of student-led societies and groups range from mountaineering to badminton to midwifery.

Events

From workshops to training courses to volunteering fairs, we aim to provide events and opportunities that all students can enjoy.

YOUR FACILITIES

Your Library

Supporting your learning with access to thousands of books, journals, and electronic resource collections, our libraries provide a complete range of services and support to enhance your academic and study skills.

Our campus libraries are friendly, welcoming, and safe spaces for you to use and enjoy. Our supportive Skills@Cumbria team offers appointments, workshops, webinars, online resources, and videos on a wide range of topics, including referencing, searching skills, academic writing, and more.

We regularly increase our library resources, working with lecturers to provide the essential reading lists you need for your modules. We also encourage you to recommend books for the library to purchase for our collections as part of our 'Get More Books' and 'Reading for You' schemes.

Our 'Reading For You' scheme is a collection of general interest fiction and non-fiction books, which staff and students are encouraged to use and make suggestions to add to. The scheme emphasises well being, understanding, wisdom and wider potential alongside academic excellence.

Postgraduate Research Services

Library Services support you no matter what stage you are at in your research career and provides you with a range of services, systems, resources, and training to help achieve your research goals.

Flexible Study Spaces

All our campuses have designated study spaces that offer comfortable and productive environments to suit your learning and research needs. Where possible, this includes social spaces for collaborative work with others, as well as bookable study rooms and silent zones for when you need a distraction-free environment. Plus, we have many great spots around campus that provide perfect places to relax whilst studying or taking a break.

UoC Active Sports & Fitness

UoC Active is here to help you maintain an active lifestyle. We offer a range of facilities and services including.

- Affordable memberships for university campus and local partner facilities.
- Free activities and events.
- A range of exercise classes.
- Discounted sports hall hire.
- Health & fitness award courses.
- Expert advice and guidance.

EXPLORE OUR LOCATIONS

CARLISLE

AMBLESIDE

LANCASTER

LONDON

LOCATIONS

Carlisle

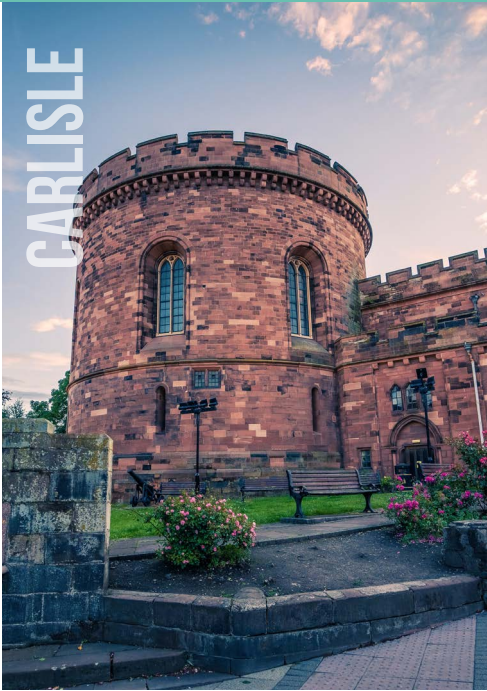

A vibrant Cumbrian city surrounded by the beautiful greenery of the North Lakes, Carlisle is home to two of our campuses, both located within walking distance from Carlisle train station.

Brampton Road

Situated right at the top of Hadrian's Wall, our Brampton Road Campus sits just across the River Eden and is surrounded by parkland. This campus serves as Cumbria's hub of the arts, where like-minded creative students come together to turn their passions into careers.

Fusehill Street

With over 100 years of history behind it, our Fusehill Street Campus served as a hospital for the wounded during World War I and later became Carlisle's Maternity Hospital. Since then, we have continued to champion its roots in health and science through training the healthcare workers and scientists of tomorrow.

Lancaster

Jam-packed with cosy coffee spots, quirky high street shops, and plenty of green spaces, there's certainly something for everyone in Lancaster.

Our Lancaster Campus combines innovation and culture. Filled with advanced practical facilities, such as sport performance labs, an X-ray and ultrasound suite, training wards, ambulance simulators, and teacher training rooms, you can gain hands-on experience in nursing, paramedic science, sport, or rehabilitation to propel your career.

Sports facilities on campus include a gym, sports hall, and outdoor pitches, and there are several lively places to stop and have a bite to eat.

LOCATIONS

Ambleside

As the UK’s only university campus located in a national park and UNESCO World Heritage Site, Ambleside offers a place to study like no other.

With more than 150 high peaks and 52 lakes and tarns on your doorstep, Ambleside boasts spectacular landscapes and unrivalled access to unique habitats and surroundings.

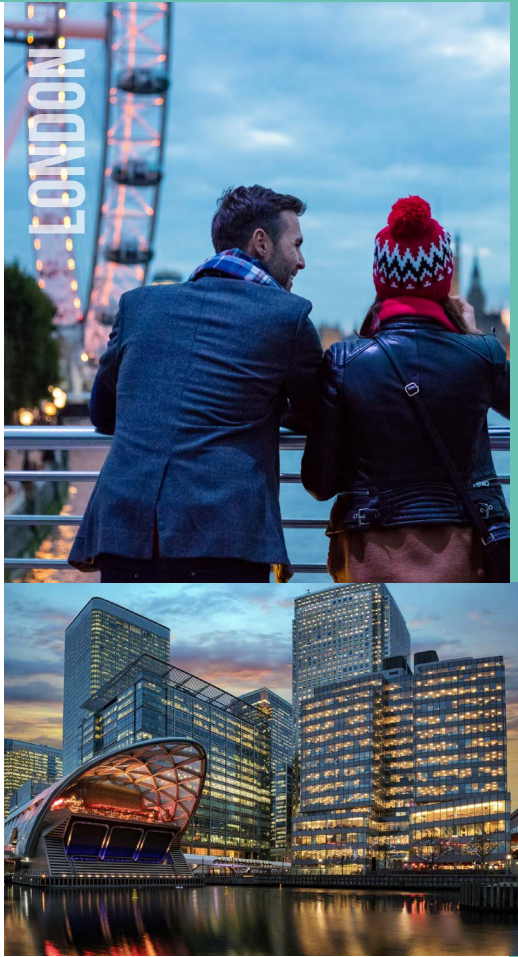

Just a short walk from the town centre is our Ambleside Campus, which has some unique and exciting facilities that allow you to get involved, get active and immerse yourself in the environment in which you will study. This includes impressive science labs, a bouldering wall, and an equipment hire department for hiking, mountaineering, sailing, kayaking, canoeing, and climbing.

London

Our roots may be in Cumbria, but our ambition stretches across the UK. Located just steps away from the iconic Canary Wharf, our London Campus is the home of opportunity for aspiring future leaders and world changers.

This world-famous city full of culture and diversity caters for every student. The facilities, support services, and outstanding academics at our London Campus make it a place where studying changes lives, right in the heart of our capital city.

FUNDING YOUR STUDIES

Investing in Your Future

Postgraduate study gives you the opportunity to specialise in your field, advance your career, and develop your knowledge to the highest level. It's important to secure your funding ahead of time so you can focus on what matters most – learning.

Your Living Expenses

The cost of living as a student will vary greatly depending on your needs and personal lifestyle choices. One of the most expensive costs is your accommodation. Generally speaking, living expenses in the North West, where most of our campuses are based, tends to be lower than other places in the UK.

A recent survey conducted by Student Crowd in 2022 placed Carlisle 4th out of 70 UK cities for the most affordable student accommodation.

Tuition Fees

Postgraduate tuition fees vary depending on the length and intensity of the course. Tuition fees can be found on each course page within this guide. Financial support, funding and/or student loans may be available to you.

Scholarships & Bursaries

We offer a range of grants, scholarships, and bursaries to support low-income students, students from partnered organisations, those who go on to study a PGCE course, and more. Visit our postgraduate student finance page for more information.

RESEARCH IMPACT

Postgraduate Research

Since the University of Cumbria was established in 2007, our research has been continuously delivering real-world benefits to local, national, and international communities, practitioners, and industries. Built upon 150 years of higher education, our reputation for research excellence and innovation is ever-growing.

Through our range of research-based courses, we aim to enhance our students' education by providing the opportunity to participate in research that positively impacts the wider world. Our expert academics are leading researchers who are committed to providing excellent support and supervision that enables students to make a valuable contribution in their field.

Innovation Conversation

'Innovation Conversation' is the University of Cumbria's podcast series featuring conversations with some of the institution's leading lights in research and innovation talking passionately about their expertise and motivations. Subjects range from the enormous impact insects have on the world to sustainable development lessons from Africa. To get a taste of our exciting research, visit our Spotify channel by searching University of Cumbria.

FIND OUT MORE

Our Research Themes

HEALTH & WELLBEING

The Centre for Research in Health & Society (CRiHS) contributes to the positive transformation of health and social outcomes, driving excellence in research, evaluation, scholarship, and practice.

CREATIVE PRACTICE

The Arts Research Initiative explores a range of creative disciplines and topics such as environmental issues, mythologies, and political landscapes.

ENVIRONMENT AND GEOGRAPHY

Led by the Centre of National Parks and Protected Areas (CNPPA), our research addresses complex local and global challenges and enables us to develop innovative practices that enhance landscapes and communities.

BUSINESS, LEADERSHIP & VISITOR ECONOMY

Managed by the Centre for Regional Economic Development (CRED) and the Initiative for Leadership and Sustainability (IFLAS), our work focuses on regional development, sustainable leadership, project management, and tourism.

EDUCATION & OUTDOOR LEARNING

The Learning, Education and Development Research Centre (LED) supports practitioners in publishing high quality research that influences policy and professional development.

RESEARCH CENTRES & GROUPS

- There are several other centres and groups that research topics outside of the above themes, including:
- Child, Youth, Family and Community Network
 - Teacher Education Advancement Network (TEAN)
 - Health & Society Knowledge Exchange (HASKE)

COURSE TYPES

Programmes of Study

The programmes of study offered by the University at postgraduate level can be divided into four main groups.

POSTGRADUATE DIPLOMA & CERTIFICATE

Diplomas and Certificates are Level 7 qualifications that are valued at two-thirds or one-third of a traditional master's, respectively, and take less time to complete. Some courses may provide the option to top up Diplomas and Certificates to a master's level qualification at a later date.

PGCE

Want to share your passion? Equivalent to 60 credits of a master's degree and typically lasting one year, a Postgraduate Certificate in Education (PGCE) prepares you to teach your subject in a classroom.

MASTER'S DEGREE

As a complete Level 7 qualification, studying a master's degree provides the opportunity to further explore an area of interest or take the next step towards a doctorate. Both taught and research courses will increase employability.

PHD

As the highest level of qualification, a doctorate degree offers students the opportunity to make a significant contribution to their field and collaborate with others to conduct and publish a piece of research.

MA | EDUCATION PROFESSIONAL PRACTICE

Upgrade your teaching with an MA in Education Professional Practice. Investigate a wide range of educational issues and become an expert in your field, at a flexible pace through the ease of online learning.

Develop your professional skills by applying current experience to deeper theoretical learning. What's more, with a variety of focused modules, you can customise the programme to align with your own professional practice and interests.

COURSE OVERVIEW:

Are you a current teacher or educator looking to enhance your professional skills and learning? Our well-respected MA programme in Education Professional Practice offers an academic repertoire that covers a range of pathways in the education field.

Our research-active tutor team will guide, support, and encourage you throughout this exciting and challenging experience.

Furthermore, the option to take a smaller 'stand-alone' module is designed as an introduction to master's-level work, while the ability to pay fees in installments will also allow for greater financial flexibility and balance.

(NON-QTS ONLINE)

Are you looking to learn flexibly while achieving an award recognised in a range of educational settings? Our acclaimed PGCE (non-QTS) programme is delivered online as a distance learning provision.

Our part-time programme can be taken flexibly alongside part-time/full-time employment. The course is for individuals already working in an education setting who are looking to progress in their career.

COURSE OVERVIEW:

Drawn from the learning of our well-respected PGCE provision, this online course allows you to attain a Postgraduate Certificate in Education (Non-QTS) in a flexible learning framework. The two modules in this programme enable you to critically analyse learning and teaching. In doing so, you will be able to demonstrate knowledge and understanding of key theories of learning and teaching, as well as reflect on their application in your chosen setting.

This flexible course is a unique option to support career progression and is therefore perfect for people currently employed or volunteering in an education setting, as well as those looking to enter a career in the sector. Moreover, it complements alternative routes into teaching, making it an ideal course for those who have completed courses such as the QTS Direct Assessment Only or the SCITT.

PGCE | PRIMARY EDUCATION WITH QTS*:

GENERAL PRIMARY (5-11) YEARS

Are you passionate about helping children to be the very best they can be? If so, what better way to fulfil that passion than learning to engage and motivate children’s learning and develop their skills, knowledge and understanding by becoming a primary teacher.

Our well-respected PGCE General Primary with QTS (Qualified Teacher Status) programme supports you through your journey from student to Early Career Teacher. The PGCE is an internationally renowned academic qualification, combined with the award of Qualified Teacher Status (QTS) gives you the very best of evidence-based and informed practice. Our approach therefore provides you with the skills, knowledge and understanding necessary to navigate the complex and exciting demands of the primary classroom.

COURSE OVERVIEW:

Ready to inspire and change the lives of Primary aged children with the learning of our acclaimed PGCE General Primary? This programme provides you with all the skills, knowledge and experience to teach engaging and stimulating lessons in a primary school setting.

You’ll learn through a blend of theory and hands-on experience, working within the National Curriculum framework. You’ll explore a range of key teaching skills and concepts from exploring how children learn, to managing behaviour, planning lessons and adapting teaching to a range of learners. You will also explore the theme of challenging and dismantling disadvantage and the key role a teacher has in raising aspirations.

Over half the course will be spent working with children on assessed placement, with school-based enrichment activities through Intensive Training and Practice (ITAP) alongside your university-based study. You’ll take three assessed placements across a variety of schools and settings, building a wealth of experience to help advance your future career. These placements are planned intentionally throughout the programme to build on your curriculum, facilitate your enactment of it and are designed to provide the level of challenge you need as the programme develops.

ON THIS COURSE, YOU WILL...

- Develop your passion for inspiring curiosity in children into a fulfilling career.
- Benefit from high-quality support from our academics and staff on a programme designed around you.
- Learn from an experienced, highly-qualified programme team, working at the forefront of the academic field.
- Enjoy the intimate feel of our course delivery, with small class sizes and your own personal tutor.
- Utilise cutting-edge research on a revalidated and up-to-date course.

MINIMUM ENTRY REQUIREMENTS

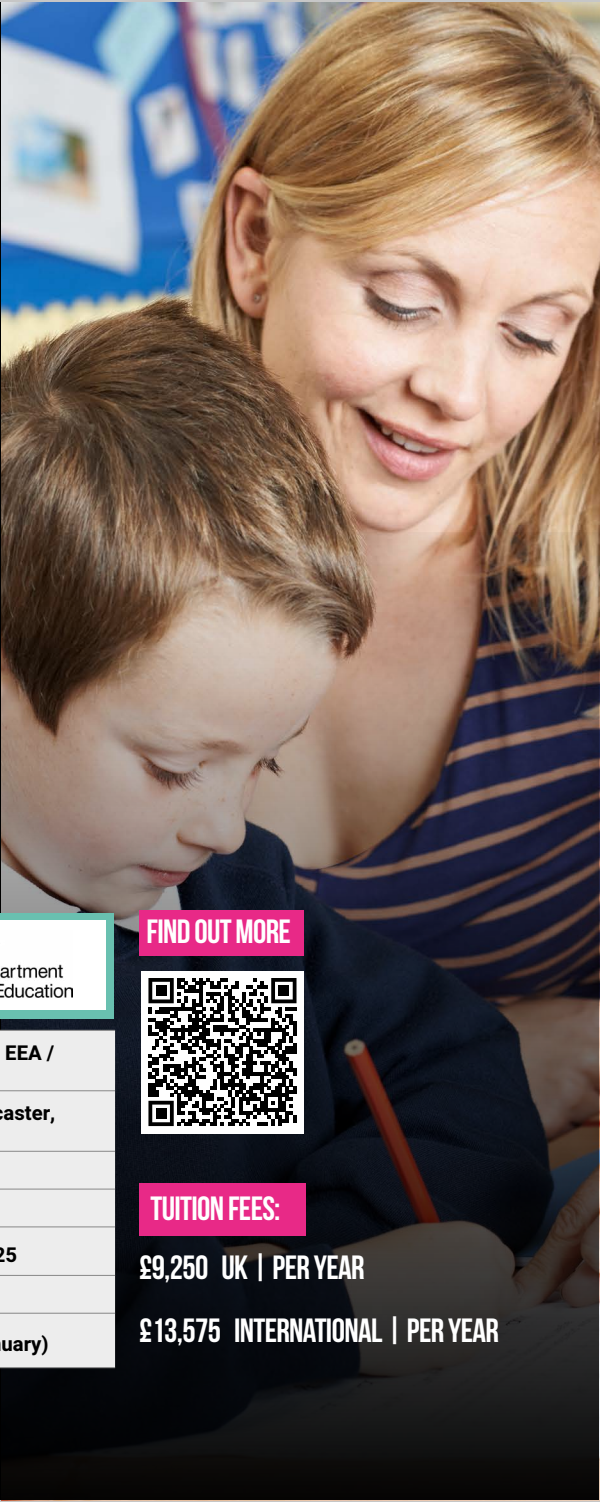

- A first degree, or equivalent with a minimum of 2:2 honours.
- Three GCSEs at minimum grade C/4 or above to include English, Mathematics and Science (including Biology, Chemistry, or Physics).
- A satisfactory academic (university) reference AND a satisfactory professional reference if more than three years since academic study.
- All candidates must demonstrate professional suitability through interview and must obtain medical and enhanced DBS clearance according to established university procedures.

“

I LOVE HOW PASSIONATE MY TUTORS ARE AND HOW YOU ARE ENCOURAGED TO TRY DIFFERENT WAYS OF LEARNING AND TO BE CREATIVE NOT ONLY INSIDE THE CLASSROOM, BUT ALSO OUTSIDE. THEIR KNOWLEDGE AND EXPERIENCE REALLY DOES SHOW WHEN THEY TEACH YOU AND THAT’S WHY I CHOSE CUMBRIA.

Chantel du Randt

PGCE | PRIMARY EDUCATION WITH QTS*:

GENERAL PRIMARY WITH ENVIRONMENTAL AND EXPERIENTIAL EDUCATION

Are you looking for a career where you can channel your interests to help children discover the natural world? You can nurture a lifelong love of the environment as a Primary School teacher with a specialist pathway in Environmental and Experiential Learning.

This pathway focuses on place-based learning linked to Morecambe's Eden Project North and provides you with an opportunity to be involved in a collaborative project with local schools around the new Morecambe Bay curriculum.

Our well respected PGCE General Primary with QTS (Qualified Teacher Status) supports you through your journey from student to Early Career Teacher. The PGCE is an internationally renowned academic qualification which, when studied alongside the award of Qualified Teacher Status (QTS), gives you the very best of evidence-based and informed practice. Our approach therefore provides you with the skills, knowledge and understanding necessary to navigate the complex and exciting demands of the primary classroom.

COURSE OVERVIEW:

Enhancing the learning of our acclaimed PGCE General Primary, this Environmental and Experiential Learning pathway allows you to hone your pedagogy in terms of place-based learning in a primary school setting. Working with local schools, this unique course pathway gives you the opportunity to develop a lifelong love of the local area, explore environmental issues, and help deliver an inspiring, influential and innovative learning experience drawing upon the natural environment.

You'll learn through a blend of theory and hands-on experience, working within the National Curriculum framework. You'll explore a range of key teaching skills and concepts, from exploring how children learn to managing behaviour, planning lessons and adapting teaching to a range of learners. You will also explore the theme of challenging and dismantling disadvantage and the key role a teacher has in raising aspirations.

Over half the course will be spent working with children on assessed placement, with school-based enrichment activities alongside your university-based study. You'll take three placements across a variety of schools and settings, building a wealth of experience to help advance your future career.

ON THIS COURSE, YOU WILL...

- Develop your personal interest in environmental issues and the natural world through a specialist pathway.
- Benefit from high-quality support from our academics and staff on a programme designed around you.
- Learn from an experienced, highly qualified programme team, working at the forefront of the academic field.
- Enjoy the intimate feel of our course delivery, with small class sizes and your own personal tutor.
- Utilise cutting-edge research on a revalidated and up-to-date course.

MINIMUM ENTRY REQUIREMENTS

- A first degree, or equivalent with a minimum of 2:2 honours.

GENERAL PRIMARY WITH INCLUSION/SEND

Discover our PGCE General Primary course with a specialist pathway in inclusion/SEND. This pathway, alongside our acclaimed General primary programme, provides you with additional specialist knowledge and expertise in the field of working with children with SEND and inclusion.

Whilst preparing you for the exciting environment of the mainstream primary classroom, this pathway provides you with additional skills that will allow you to become confident in creating inclusive teaching and learning experiences. In addition, choosing this pathway can also be a step towards a career as a SENCo or a specialist SEND teacher.

COURSE OVERVIEW:

This specialism allows you to explore ways in which all pupils, including those with special educational needs and disabilities, can be included in classrooms and schools.

You will learn through a combination of theory, an examination of current policy and practice, including the Children and Families Act (2014) and the SEND Code of Practice 0 to 25 (2015), combined with plenty of practical experience and input from experts in the SEND field.

MA | CREATIVE PRACTICE

Whether you are progressing from undergraduate studies or you are an established professional with a desire to diversify your practice, our MA in Creative Practice will enable you to develop and extend your creative portfolio and boost your career aspirations.

Multidisciplinary practice is a defining aspect of the programme and you will be part of a rewarding learning environment that opens up opportunities for creative exchange or collaboration.

COURSE OVERVIEW:

The choice is yours. You will draft, initiate, and project-manage your own creative briefs, with guidance from programme tutors. You can specialise in one medium or work on projects across multiple media, either individually or collaboratively. You will have access to the industry-standard facilities at our Brampton Road campus and be supported by our expert technicians. Our MA will give you the practical, technical, and applied knowledge to develop the flexible skills needed to forge a career within a constantly shifting cultural landscape.

The MA Creative Practice programme is structured across a full calendar year, starting in late September and culminating the following August. The programme leads towards the completion of a major MA Project, and professional presentation in the final master's exhibition. Working under the guidance of your tutors, you can approach the practical modules thematically as part of one overarching project, or as a series of mini briefs.

KEY DETAILS

MA | LITERATURE ROMANTICISM & THE ENGLISH LAKE DISTRICT

This course offers a unique opportunity to study a rich body of literary and non-literary texts within the geographical landscape where they were inspired. Our Ambleside campus is located in the heart of the Lake District National Park - a UNESCO World Heritage Site.

The landscape of the English Lake District has been a source of inspiration to generations of poets and writers. We look forward to welcoming you to explore romanticism in literature.

COURSE OVERVIEW:

You will explore critical ideas about the relationship between the creative imagination and place, and have the opportunity to visit some of the specific locations that have inspired and continue to inspire writers. The course also offers opportunities to engage with partner organisations such as Brantwood and the Wordsworth Trust, and to work with related and unique manuscript resources.

More than just an MA in English Literature, this course can enhance prospects in a range of careers that demand high-level analytical and interpretative skills as well as advanced skills in written and oral communication. Specific career pathways might include work in publishing or the creative and cultural heritage industries; the course can also support students wishing to go on to study at MPhil/PhD level.

KEY DETAILS

RECRUITING TO:	UK / RoI / Settled in UK / EU / EEA / International

MA | OUTDOOR & EXPERIENTIAL LEARNING

This course is designed and delivered by expert lecturers to build your knowledge and skill set, while fulfilling your passion to work in the outdoors and support others in contributing towards society and the environment.

Graduates have gained employment as educators, outdoor practitioners, environmental consultants, development trainers, and mental health practitioners.

COURSE OVERVIEW:

This course uses the fundamental process of actual lived experience to explore the cultural, ecological, and political lenses that influence our thoughts and behaviour. In contrast to more formal approaches to learning, this course exemplifies experiential learning in its delivery, as well as in the content of its curriculum.

This course is transdisciplinary, teaching across disciplines as varied as anthropology, philosophy, bushcraft, therapeutic landscapes, art, pedagogy, and eco-psychology.

Available pathways:

- Outdoor & Experiential Learning
- Outdoor & Experiential Learning (Bushcraft)
- Outdoor & Experiential Learning (Health & Wellbeing)

MA | COUNSELLING & PSYCHOTHERAPY

If you're interested in supporting people and the human psyche intrigues you, you can make an immense impact on the lives of others by becoming a counsellor or psychotherapist.

You can combine your compassionate character with the academic knowledge and practical skills that are required to help people explore their difficulties, express their feelings and work towards deeper selfawareness and understanding.

COURSE OVERVIEW:

Throughout, you will consider theories about psychological health and distress, and you may work with clients presenting with a wide range of different experiences.

You will train to become emotionally and psychologically resilient yourself – a key trait required for your future as a therapist. Our aim is to see you become an ethically competent and reflective practitioner who can facilitate your clients' positive life changes by offering a highly professional approach to therapy. During the course, you will complete 100 supervised counselling practice hours and undertake your own personal therapy.

PGD | COUNSELLING & PSYCHOTHERAPY

If you're interested in supporting people and the human psyche intrigues you, you can make an immense impact on the lives of others by becoming a counsellor or psychotherapist.

This course will enable you to develop as a therapist and explore your interests through a range of practical and academic situations. You will support people through your own therapeutic practice and be engaged in a range of personal and professional development activities.

COURSE OVERVIEW:

Throughout this programme, you will learn how to work with others as they explore and experience pain/trauma. You will consider psychological health and distress, and work with clients presenting with a wide range of different experiences.

You will train to become emotionally and psychologically resilient yourself – a key trait required for your future as a therapist. Our aim is to see you become an ethically competent and reflective practitioner who can facilitate your clients' positive life changes by offering a highly professional approach to therapy. During the course, you will complete 100 supervised counselling practice hours and undertake your own personal therapy.

MSC | MEDICAL IMAGING (ULTRASOUND)

With a UK-wide shortage of sonographers, there has never been a better time to study an MSc in Medical Imaging: Ultrasound.

Accredited by the Consortium for the Accreditation of Sonographic Education (CASE), our intensive two-year MSc programme is the perfect accelerated pathway of study to launch your career as a sonographer.

Alternatively, we also offer a part-time pathway for those being sponsored by their employer.

COURSE OVERVIEW:

On this programme, you will learn the relevant academic and clinical knowledge and skills required to work in this field, with opportunities for hands-on training in our on-campus facilities. These include modern ultrasound scanners as well as the latest simulators to prepare you for clinical placement.

This programme gives you exposure to the a wide range of clinical areas in sonography, such as obstetrics, gynaecology, general medical (abdominal and small parts), vascular, breast, and musculoskeletal ultrasound training. Approximately 75% of your studies will be practical, so you will develop the work-based skills required to step into a job after graduation. The module delivery will be an online 'blended' learning approach. Most modules will have an element of live virtual tutorial sessions as well as some campus-based learning activity.

KEY DETAILS

Accredited by:

Consortium for the Accreditation of Sonographic Education

RECRUITING TO:	UK / RoI / Settled in UK
LOCATION:	Lancaster
INSTITUTE:	Institute of Health
DELIVERY STYLE:	Blended Learning
COURSE DURATION:	Full-time: 2 Years Part-time: 3 Years
START DATE:	September 2024 (Part-time), January 2025 (Full-time and Part-time), May 2025 (Part-time)
AWARD:	MSc

ON THIS COURSE, YOU WILL...

- Learn the academic knowledge and clinical skills required to work in the field of medical ultrasound, enabling you to become a confident and competent practitioner.
- Work with a placement hospital to gain exposure to a range of sonography specialisms, such as obstetrics, gynaecology, general medical, and vascular.
- Be welcomed from a range of healthcare and non-healthcare backgrounds. A healthcare background or degree is not required for the full time pathway..
- Engage in practical training to gain work-based skills and have access to our cutting-edge ultrasound training hub.

MINIMUM ENTRY REQUIREMENTS

2:1 HONOURS DEGREE (2:2 CONSIDERED)

A-Level Science at grade C or above, 5 GCSEs at grade 4/C or above to include Maths, English Language and Science. GCSE Science must be grade B/5 or above.

Part Time Entry Requirements

1st or 2nd class honours degree in a science or healthcare subject, and you will usually need to have at least 12 months' equivalent full-time post registration clinical experience, in your respective profession, and you will need support from a clinical ultrasound department and access to a clinical placement in such a department for the duration of the course.

Part-time and international students must have secured a suitable clinical placement in the UK or Republic of Ireland prior to applying for the course.

MSC | MEDICAL IMAGING: MAGNETIC RESONANCE IMAGING (MRI)

This programme is designed for radiographers who are keen to expand their practice and understand the latest developments in MRI.

By using your own experience, the course develops critical thinking skills, for example completing a physics-based portfolio for the first module – MRI Practice 1 – and a poster in the second module. The course is accredited by the College of Radiographers.

COURSE OVERVIEW:

On this programme, you will combine academic modules with work-based clinical placements. Taught by expert clinical practitioners and researchers, most modules are delivered in week-long blocks, allowing you to concentrate your study efficiently. Some modules are delivered fully online. You will gain the knowledge that will provide a safe and efficient environment for patients and staff. Techniques that can obtain high levels of clinical image quality under challenging circumstances will be outlined.

A key feature of the programme is the support of a wide range of locally and nationally respected MRI radiographers (some who report MR images), radiologists, and physicists who act as honorary lecturers at the University of Cumbria and are involved in curriculum planning and delivery. You will also receive mentoring from senior specialist clinical practitioners during your placements.

As you move through the course you develop more independent learning – allowing research into safety and advanced MR imaging techniques for example. Throughout the programme, you will develop advanced critical thinking, research and independent enquiry skills, putting you in an excellent position to advance your career and take on the challenges that clinical leadership and more senior clinical roles can bring.

TUITION FEES:

£3,465 UK | PER YEAR | PART-TIME
£5,493 INTERNATIONAL | PER YEAR | PART-TIME

ON THIS COURSE, YOU WILL...

- Study a course that is highly regarded within the MRI community. Many MRI radiographers in senior positions in departments have either been students themselves or a mentor for students on the course.
- Gain excellent networking opportunities within a facilitative and dynamic learning environment. Historically, we have taught students joining us from the NHS, university research departments, and providers across the UK.
- Be taught in three one-week blocks spread throughout the academic year (typically in October, February and May).

MINIMUM ENTRY REQUIREMENTS

- 1st or 2nd class honours degree
- Undergraduate qualification in Diagnostic Radiography
- At least 12 months' equivalent full-time post-registration clinical experience and demonstrate that you will be able to work in a MR department for a minimum of 2.5 days per week
- Reference in support of your application

MSC | MIDWIFERY (PRE-REGISTRATION)

You want to change the lives of birthing parents, newborns, and families during this significant period of their lives. Prepare for a rewarding and fulfilling career supporting the growth of families before, during, and after the birth process.

Become a highly educated midwife with the potential for management, leadership, consultancy, educational, and research roles.

COURSE OVERVIEW:

This course aims to prepare you for the complex, demanding, and rewarding area of midwifery. You will become an advocate for birthing parents and newborn infants, collaborating with the wider health team to ensure a safe and successful journey. You will learn to provide skilled and compassionate care and become a fully qualified midwife in three years. Upon successful graduation, you will be eligible for registration with the Nursing and Midwifery Council as a qualified midwife.

To gain vital real-world experience, 50% of your course is spent on placement. Placement experience provides opportunities for you to experience pregnancy and childbearing over the full continuum and includes shorter spoke placements. This course will allow you to obtain sought-after postgraduate credentials, with a NHS Band 5 prospective starting salary.

The NHS Learning Support Fund, offering at least £5,000 per year, is available to eligible students. For more information and details of eligibility, visit www.nhsbsa.nhs.uk/lsf

MSC | OCCUPATIONAL THERAPY (PRE-REGISTRATION)

Enhance the lives and well-being of people facing physical, mental, or social challenges by using your scientific knowledge to maximise the ability to move and function in a work environment. This is a two-year, accelerated route into occupational therapy.

This RCOT and HCPC accredited course is designed to equip you with all the academic know-how and valuable hands-on skills you will need to become a qualified occupational therapist and make a difference to the lives of others.

COURSE OVERVIEW:

Building on your existing academic skills, you will learn profession-specific practice that meets the needs of your future employers. This will be achieved through academic learning, hands-on learning, and a range of clinical practice. This includes working in a variety of settings with children and adults who face physical, social, or mental health issues. You will complete over 1,000 hours of clinical practice placements, taking advantage of our exceptional partner links.

Our tutors will use their professional experience to provide you with theoretical backing and hands-on opportunities in our varied facilities. You will utilise our simulation labs, home space, creative spaces and more to develop your skills before going on placement. Whilst learning, you will be able to work with other health students, as you would in a professional role.

MSC | PSYCHOLOGY: ENVIRONMENT, HEALTH AND WELLBEING

Are you a psychology or social science graduate interested in how we can use the environment to enact positive changes on health and wellbeing? This innovative programme will enable you to progress towards a career in fields related to environmental psychology, health and wellbeing.

COURSE OVERVIEW:

You will build on your existing academic knowledge and professional experience to take an in-depth and critical look at environmental psychology as a multidisciplinary area, develop a critical understanding of the interrelationship between organisations and the environment, and explore how we can use outdoor spaces to improve the health and wellbeing of people and environments.

You will also explore your own professional values and ethics, the importance of these in your professional life, and research methods. This includes training in current and topical methods that can be used in exploring the importance of the environment, health and wellbeing. We have earned a great reputation nationally for our cutting-edge research methods.

This course allows you to study flexibly online, at a time and place that suits you, or at our Carlisle Fusehill Street campus. Whether you choose online or in-person study, you will be invited to attend optional residentials in Ambleside, which will allow you to engage in face-to-face activities while benefiting from the spectacular environment of the Lake District National Park.

You will be encouraged to get involved in our research community. We have an in-house journal that is peer-reviewed and gives you the chance to get your work published. We also offer a student conference that runs twice a year and gives you the chance to present your research findings to an audience.

Students who have completed this programme have gone on to use their knowledge within their own research as well as implementing it within a variety of workplace and practice-based settings, including working with children and young people, and working within organisational settings including mental health settings and the criminal justice system.

ON THIS COURSE, YOU WILL...

- Explore and apply psychological literature to current issues, contexts, and experiences around issues related to the environment, health, and wellbeing.
- Be taught and given high-quality support and guidance by our lecturing team who are active in their research and practice.
- Learn valuable transferable skills in postgraduate research, which are highly sought after by employers.
- Have the opportunity to tailor your learning experience to your own interests and career goals. This is through both the Negotiated Learning module, where you will explore a topic that you are interested in and present this as an assessment of your choice, and your dissertation, which is an opportunity to engage in primary or secondary research to explore relevant and important topics.

MSC | SPORT AND EXERCISE REHABILITATION

This course is designed to give you the academic, professional and industry knowledge and skills needed to kickstart your career in sport and exercise rehabilitation.

If you're a graduate physiotherapist or other health professional wanting to practise in a sport and exercise environment, our innovative one-year programme will give you the opportunity to gain an advanced knowledge of sports science and sports injuries, while developing a critical approach to clinical practice.

COURSE OVERVIEW:

You will have the opportunity to specialise in musculoskeletal injuries and exercise rehabilitation, enabling you to work within high-performance sport as well as other settings related to sport and exercise rehabilitation clinical practice. A key component of the programme involves exposure to real-world settings, which will allow you to apply your theoretical learning to practice and develop vocational skills and experience.

You will explore an array of applied manual therapeutic techniques, including soft tissue skills, as well as functional rehabilitation and pathophysiology of treatment techniques, athletic strength and conditioning, advanced spinal and pitch-side trauma management, and multidisciplinary support for sport and exercise.

You will deepen your knowledge and understanding of athletes' needs, undertaking clinical and physical tests and assessments, and interpreting data and information gathered to prevent injury, aid rehabilitation, and enhance athlete performance.

MBA | BUSINESS ADMINISTRATION

If your career plan includes securing a high-level management position or becoming a successful entrepreneur, our Master of Business Administration (MBA) will open those doors for you to work anywhere in the world and ultimately prove that you are an expert within your industry.

This intensive master's degree is designed to integrate your own work-based learning and teach you the academic rigour, skills, and ethics to become a leader in business management, who can think logically and independently.

COURSE OVERVIEW:

Our aim is for you to graduate with a globally recognised MBA, which proves your understanding of contemporary business and management principles and the current issues affecting organisations.

It will stand you in excellent stead to secure business sustainability and give you the confidence to make high-end business decisions and the potential to become a leader in your field. An MBA is the primary management qualification for aspiring business leaders, providing you with the skills and knowledge to progress your career to more senior levels or giving you a stepping-stone to a new career.

MSC | CRIMINOLOGY, RISK AND SAFEGUARDING

If you are in a career that addresses crime-related harm, or you want to get into this important arena, our MSc in Criminology, Risk and Safeguarding could be an ideal option for you.

COURSE OVERVIEW:

You will cover safeguarding, digital victimisation, rehabilitation policy and practice, and risk and security management, among other areas.

In addition to enhancing your theoretical command of criminology, you will develop advanced research skills, suitable for theoretical and practical application. As a result, you will be equipped to respond to a range of complex challenges faced by multi-agency professionals with a remit to safeguard communities.

This programme is distinct in its comprehensive analysis of risk and safeguarding as criminological issues. This analytical approach is grounded in an acknowledgement of the correlation between the exploitation of children and adults at risk and subsequent offending behaviour.

ON THIS COURSE, YOU WILL...

- Develop advanced knowledge and understanding of criminology, risk, and safeguarding informed by current practice and research.
- Identify appropriate methodologies for dealing with complex problems.
- Examine the intersectionality of power in relation to criminal justice agencies and responses to crime, law, and order.
- Form a critical awareness of the history of ideas, cultural context, and social and political theories that inform and influence the practice of criminology.

MSC | INTERNATIONAL MANAGEMENT

If you aspire to work in the global business world with multinational companies, this course will help you to secure the professional knowledge and skills to bolster your career in this fast-paced market.

You will learn about international business practices, operations, sustainability and strategic management in the context of today's complex and changing globalised marketplace.

COURSE OVERVIEW:

You will learn in a 'global classroom' alongside international students, where you can experience a social and cultural understanding of practice in other countries, helping to inform your cross-cultural business reasoning, practices, and solutions. Plus, it gives you the opportunity to secure contacts across the globe.

Your learning will be enhanced with work-based projects and workshops, giving you every opportunity to build your business confidence and providing you with an authentic insight into the scenarios and challenges that you will face in your future career.

MSC | PROJECT LEADERSHIP

This unique postgraduate programme will provide you with the opportunity to enhance your skills as a leader in a complex project environment. This is the first university programme to be recognised by the Association for Project Management (APM) as meeting both the technical knowledge and professional practice requirements for chartership.

COURSE OVERVIEW:

Led by the University of Cumbria’s nationally acclaimed Project Management team, and developed in collaboration with the Project Academy Ltd., this programme has been aligned to the APM Chartered Project Professional (ChPP) Standard. By completing this programme, you will also be eligible to apply for Chartered Project Professional status.

As well as gaining an MSc, the course also includes a personal and professional development stream that sits alongside the taught modules. This additional element provides opportunities for self-reflection and professional development that are directly relevant to your future practice as a project professional and enable you to gain the most out of your studies.

Following graduation from the programme, you will be eligible to apply for ChPP status with the APM via a Route 2 application.

DBA | DOCTOR OF BUSINESS ADMINISTRATION

Our doctoral-level programme is tailored for seasoned executives and accomplished professionals in management aiming to enrich their insights and expertise.

Equivalent in prestige to a Doctor of Philosophy (PhD), this programme offers participants extensive opportunities for engaging in applied research that not only advances their individual knowledge but also contributes significantly to the evolution of related theories and concepts.

COURSE OVERVIEW:

Embark on a distinctive doctoral journey tailored for accomplished leaders. Customise your research in business, management, or leadership to fortify your organisation and enhance stakeholder engagement. This program is more than traditional learning; it's a personalised experience where you refine critical thinking, strategy development, and problem-solving skills.

Join an exclusive community of senior leaders, creating a dynamic space for shared experiences and profound insights. In this collaborative environment, explore and apply cutting-edge business ideals, models, and strategies directly relevant to your role. This isn't just a doctorate; it's a transformative pathway that equips you with tangible skills and actionable knowledge.

Guided by dedicated academic advisors, engage in a self-directed applied research project, participate in seminars and workshops, and complete modules covering critical thinking, research strategy, and advanced methods. The program culminates in the submission of your DBA thesis and an oral defense, ensuring you not only earn a prestigious qualification but also emerge with refined skills crucial for leadership in dynamic business landscapes.

MRES | MASTER OF RESEARCH

The MRes degree blends independent research with learning activities delivered by world-class researchers, while allowing students to shape their studies in part around their other priorities, making it an ideal qualification for early career academics and professionals alike.

The programme provides a firm foundation for developing personal and professional skills towards business, public service, third sector, research sector or doctoral study.

COURSE OVERVIEW:

The University of Cumbria's research master's programme aims to develop participants as researchers capable of designing, leading, and communicating research and development projects. You will contribute new knowledge, whilst also having an impact on practice within your subject area, professional field or workplace context.

You will be working with a core interdisciplinary programme team and drawing upon the established expertise of University of Cumbria's academics and researchers.

For students with further study ambitions, it is possible to gain Accreditation from Prior Learning (APL) from the MRes degree into either a Doctor of Philosophy (PhD) or a Doctor of Professional Practice (DProf). To progress from the Master of Research to the PhD or DProf, you will require 60% average overall, Merit or above, on successful completion of the MRes.

KEY DETAILS

RECRUITING TO:	UK / Rol / Settled in UK / EU / EEA / International

PHD | DOCTOR OF PHILOSOPHY

A PhD at Cumbria allows you to develop your ambitions in a supportive, challenging and innovative research environment.

With supervisory expertise at the intersections between theory and practice, the University offers a range of doctoral programmes to suit your research needs. These include full-time and part-time options for PhDs, PhDs by Art Practice, PhDs by Alternative Format and Professional Doctorates (DProf).

COURSE OVERVIEW:

The University of Cumbria delivers a range of postgraduate research degrees, so you can ensure your programme of work matches your interest and ambitions:

Doctor of Philosophy (PhD): A doctoral-level award assessed through a research thesis and oral defence.

Alternative Format PhD: A doctoral programme where the body of work to be assessed is in a format other than the traditional single volume thesis.

PhD by Art Practice: A doctoral programme where the body of work to be assessed comprises a negotiated set of research outcomes mediated by individual creative and art practice.

PhD by Publication: A doctoral-level award comprising an assessment of a student’s published works within a related field of study. To be eligible for consideration, applicants must be a University of Cumbria alumni and graduate of at least five years’ standing and have already obtained a master’s degree or show evidence of having received research training or equivalent.
