#LOVEYOURSTORY

LOVE YOUR STORY AT CUMBRIA

Stories define us. Very soon, you'll be starting the next chapter of your story, one that is uniquely your own. No one else has your goals, dreams, and hopes for the future. If you decide to start this exciting chapter of your story at the University of Cumbria, you'll meet life-long friends, have amazing experiences, and make lasting memories; all of which you'll still be talking about in years to come.

But what makes the best story? It's one that's inspired by your favourite moments and experiences. Whether that's the day you meet your new housemates, the first time you get a high mark on an assessment, when you watch the sunrise over Windermere, or when you graduate at Carlisle Cathedral; it's your memories which matter the most. Not how many likes you get on Insta, or how many views you get on TikTok. It's about you, loving your story.

At Cumbria, we want to help you create stories that you'll carry on loving forever. Stories of pursuing your passions, of opportunities beckoning you into new adventures, and of helping hands supporting you through the challenging times, as well as the good ones, to get you where you want to be. That's why we're here to tell you about what we offer, so that you can begin to #LoveYourStory with the University of Cumbria. We can't wait to see your story unfold.

YOU ASKED, WE ANSWERED

What are the benefits of going to uni?

We truly believe that university does more than develop your knowledge; it enriches your life! As well as improving your career prospects and employability, you'll make lifelong friends, develop so many transferable skills, and enjoy once-in-a-lifetime experiences. Your time at Cumbria will set you on the path to success.

Will a degree help me secure my dream career?

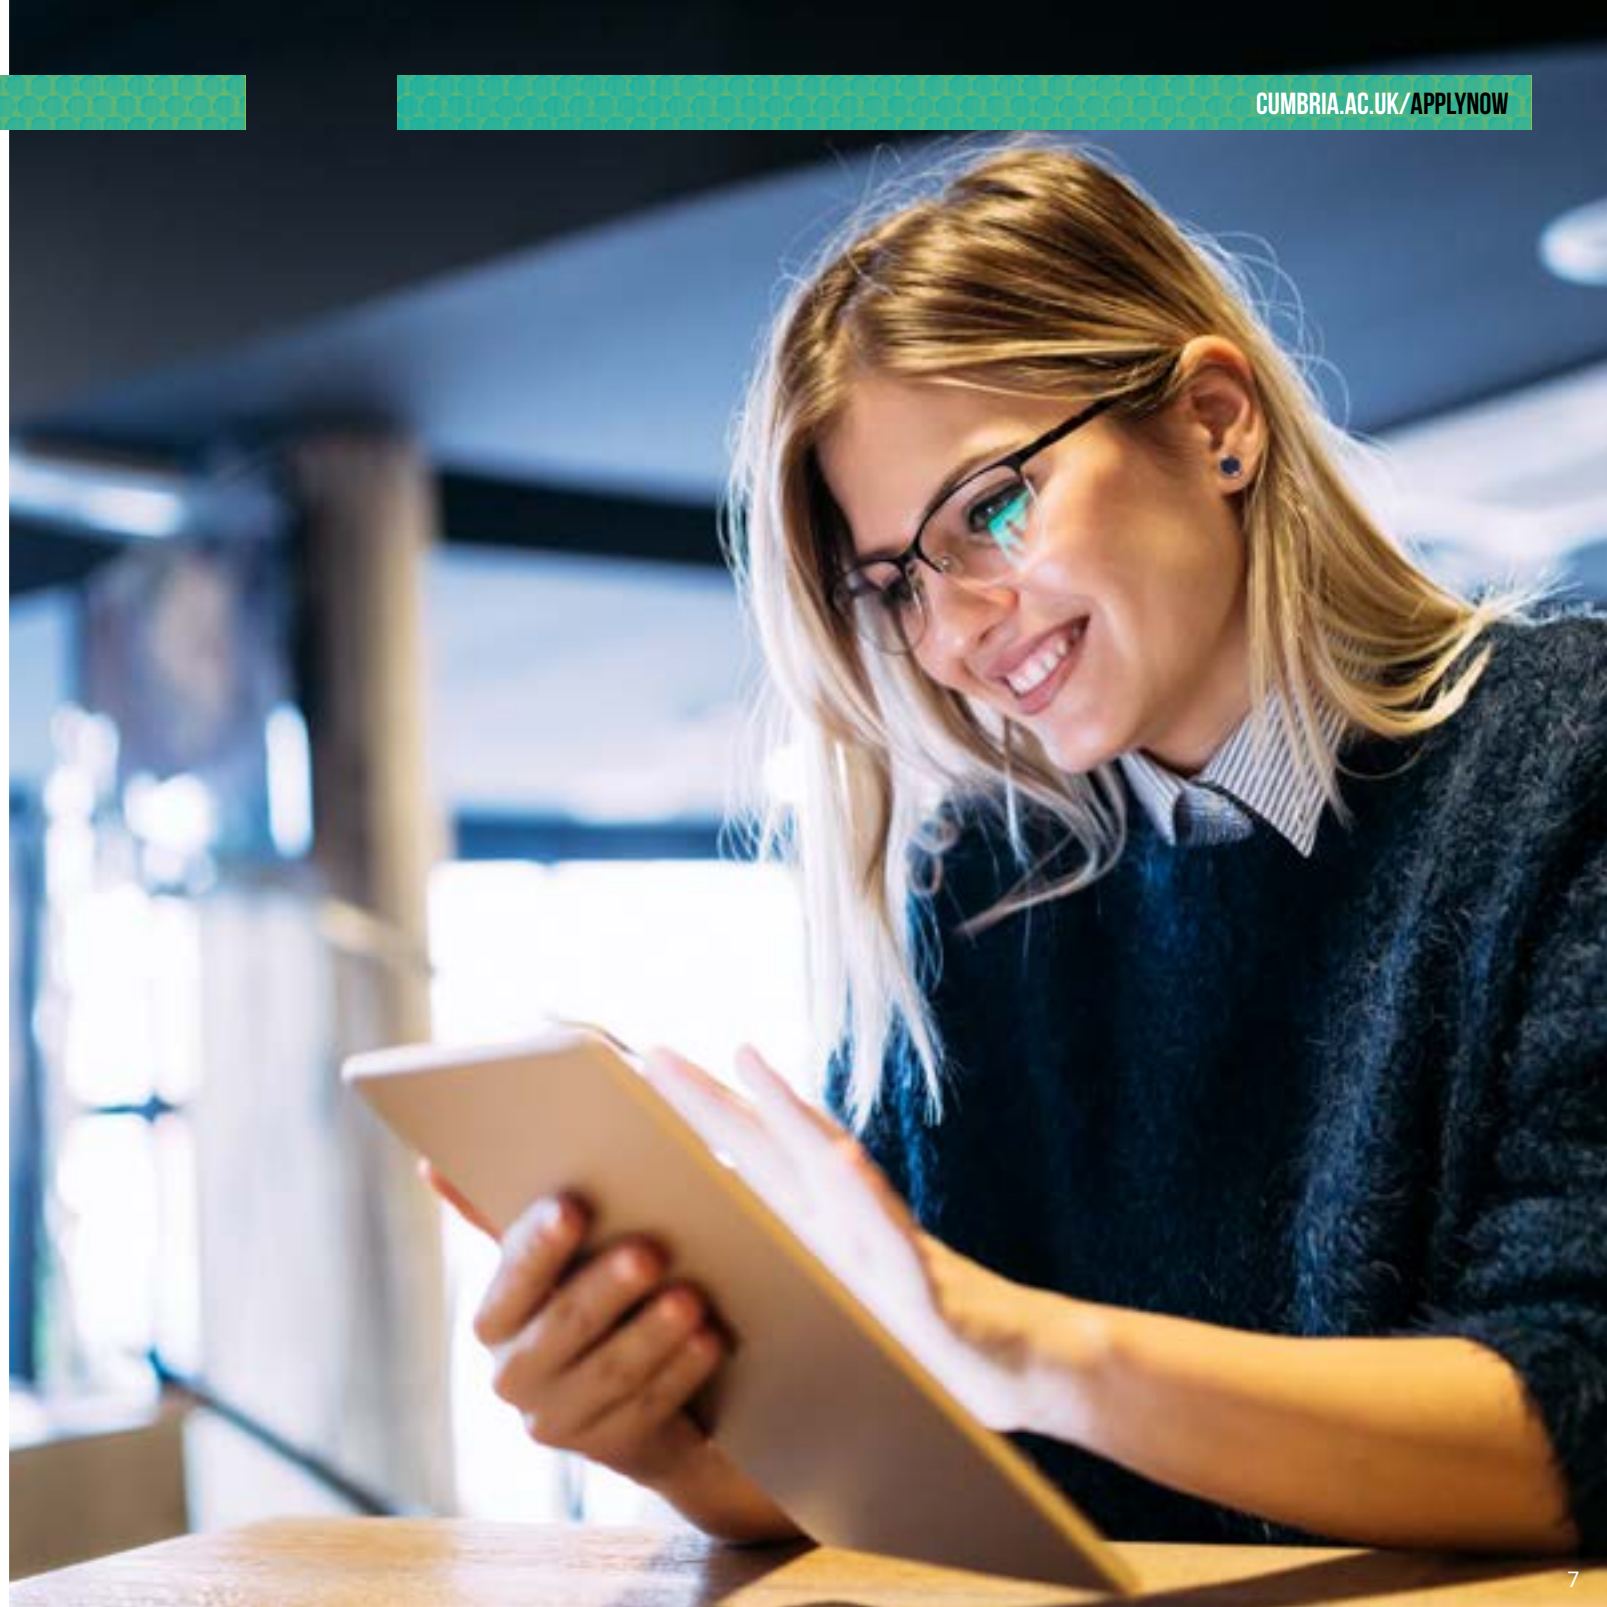

We're one of the top two universities in the North West for graduate outcomes, and our alumni have forged successful careers with leading companies both in the UK and around the world! Liverpool FC, Marvel Studios, the NHS, Cumbria Constabulary, Isle Studios, Two Stories Studios... the list goes on.

Will my tutors know who I am?

As a close-knit community, we take pride in the fact our students feel that they are names and not just numbers; our academic tutors are experts in their fields and will get to know you and your bespoke needs to ensure you can achieve your career goals.

What support will I get at university?

University-level study will come with more freedom than what you're used to, but we'll be here to support you every step of the way! Our teams are dedicated to helping you both in and outside of the classroom, providing advice on managing your studies, making friends, protecting your health and wellbeing, navigating the cost of living, and so much more.

Watch
our Open
Day video.

OPEN DAYS

Picture this: you've just got onto campus and instantly get a feeling – a feeling you've not experienced before. Suddenly, you know this is the place you belong.

And it all starts at one of our Open Days! We don't fill the day with gimmicks and marketing pitches; instead, we give you the chance to really get to know us and to get a feel for what your life at Cumbria could actually be like.

Our Open Days offer interactive, hands-on experiences such as workshops, demonstrations, and campus, specialist course facility and accommodation tours, with current students on hand for you to chat to. You will also have the opportunity to talk to course tutors as well as staff from our Student Support teams, including Money Advice, Admissions, Disability and SpLD, and Accommodation.

Start your story at one of our Open Days.

CONNECT WITH US

We'd love to show you what we have to offer at one of our Open Days, but if you can't visit us in person, there are lots of other ways to discover what life is really like at Cumbria.

OFF-CAMPUS EVENTS

We attend events around the UK every year. These include UK University Search and UCAS fairs as well as school and college events. Come along to our stands and speak to our expert teams about life at Cumbria. You can also find our international representatives at events around the world.

CHAT TO A STUDENT

Our 'Chat to a Student' tool allows you to talk to our current students and ask any questions you have about starting your story at Cumbria. Ask them what's on your mind and they'll get back to you with their tips and advice.

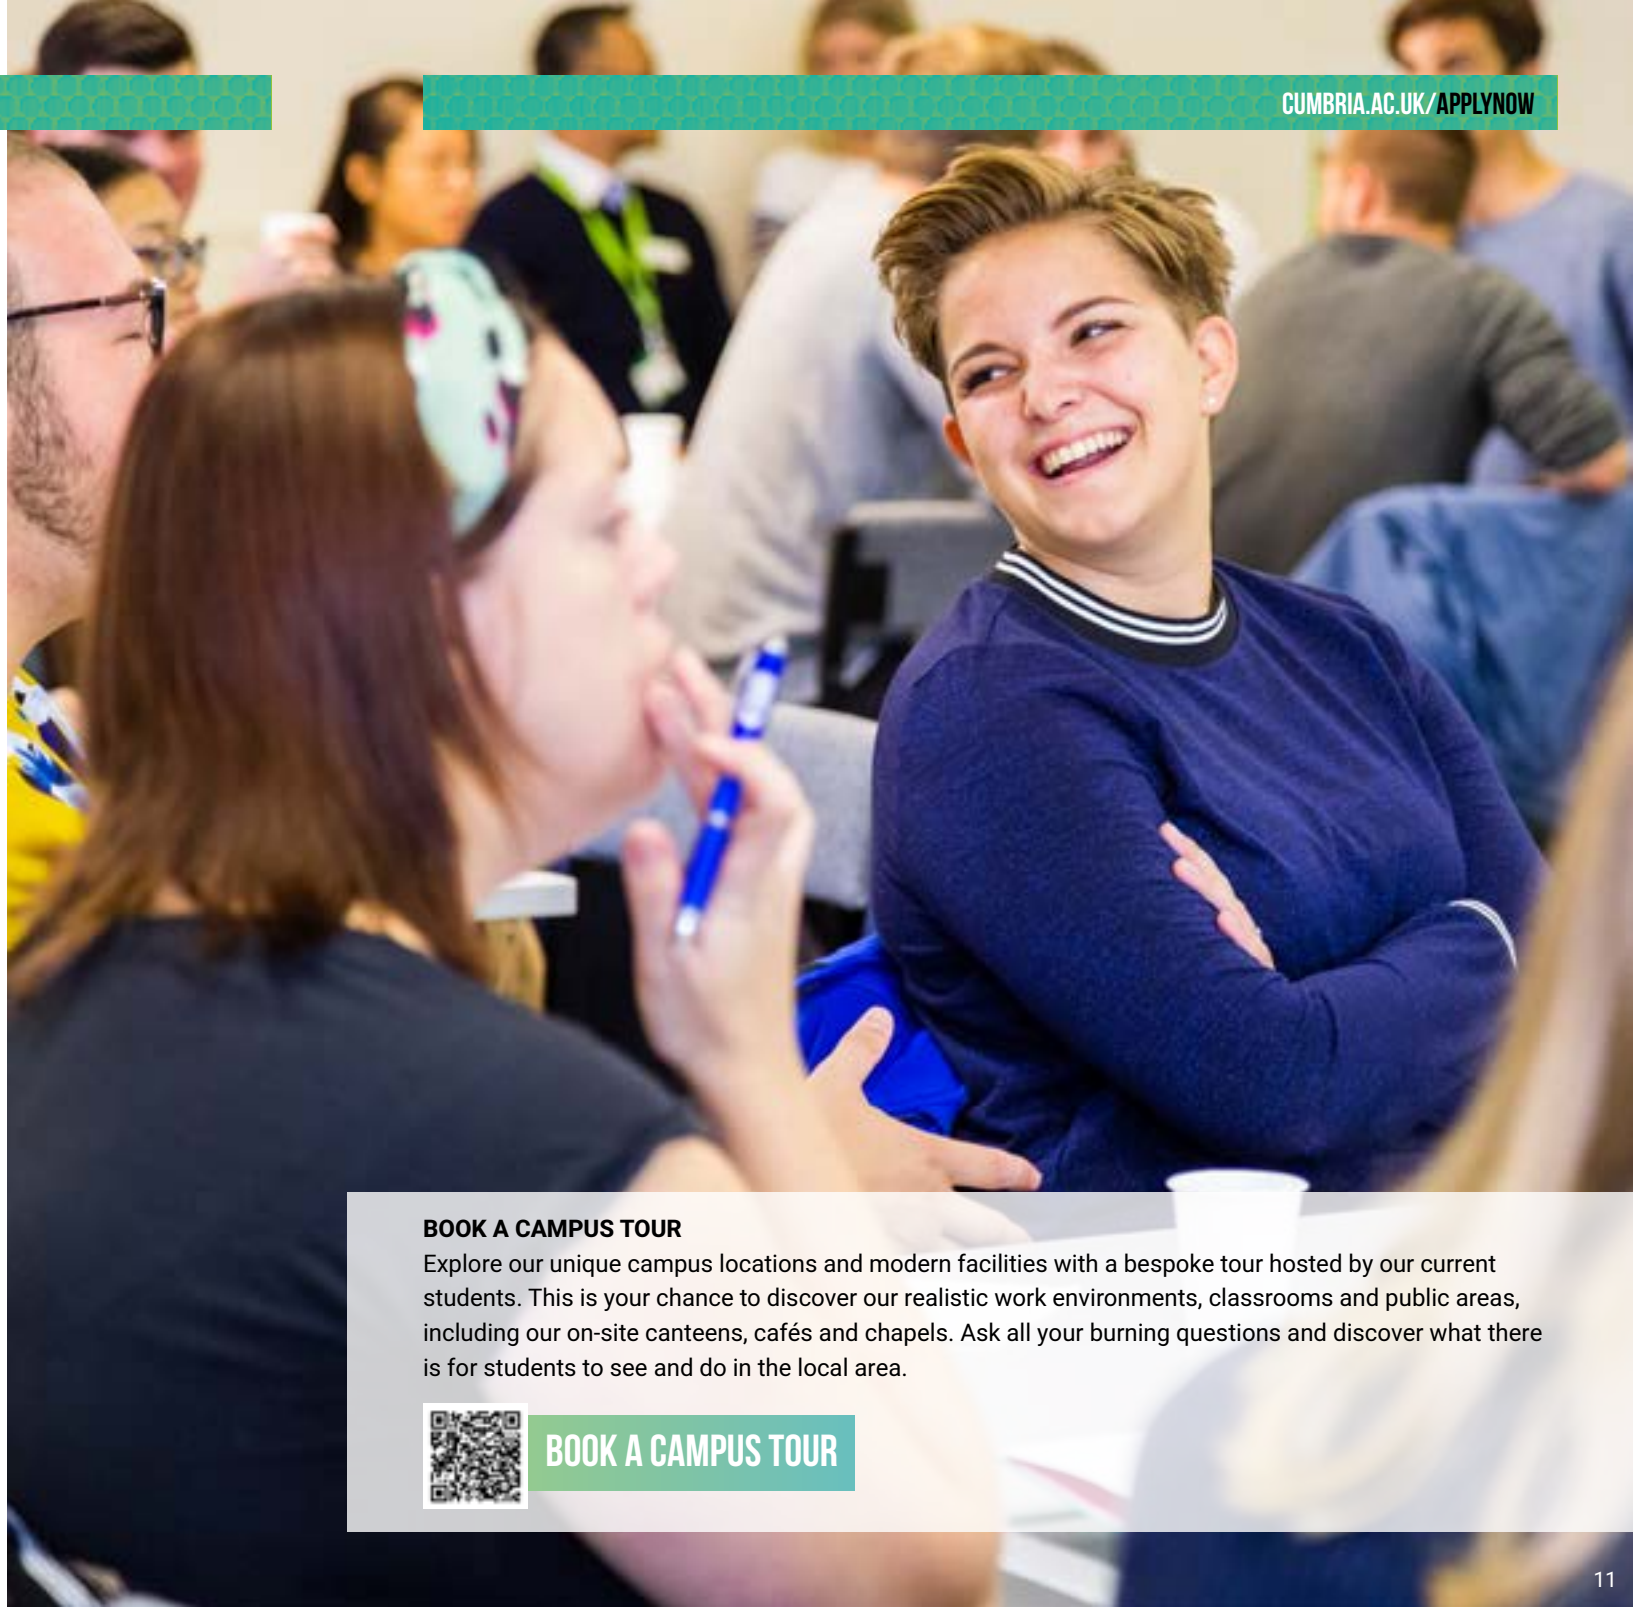

START AN ONLINE CHAT NOW

FOLLOW US ON OUR SOCIALS

With so much going on at the University of Cumbria, one of the best ways to stay in the know is to follow us on all your favourite social platforms! Learn more about our campus locations, hear what our current students have to say about their university experiences, and discover our groups and societies, plus much more.

LOVE YOUR STORY AT THE UNIVERSITY OF CUMBRIA

Watch Yvette's
story

LOVE YOUR STORY

YVETTE'S STORY.
ILLUSTRATION, BA (HONS)

Ten years after graduating from the University of Cumbria, artist and illustrator Yvette Earl visited our Fusehill Street campus to transform our outdoor classroom. Yvette's nature-themed mural has been designed to inspire both school pupils and future generations of teachers.

THE PEARS CUMBRIA SCHOOL OF MEDICINE

In partnership with Imperial College London, the University of Cumbria will be opening The Pears Cumbria School of Medicine, uniting our expertise in the education of nurses, midwives, and allied health professionals with Imperial's reputation as one of the world's best medical schools. The development and launch of the medical school has been supported by a £5 million donation from Pears Foundation.

If you are set on becoming a future doctor and pursuing a career in medicine, the Pears Cumbria School of Medicine opens in Autumn 2025 and will offer a bespoke four-year medical degree, co-created with regional NHS partners, to train compassionate, adaptable, and innovative doctors who meet the needs of residents in Cumbria and the North West.

Information

“THE CAMPUS AND WIDER BARROW LEARNING QUARTER WILL BE TRANSFORMATIONAL TO LEARNERS WHO WILL ACCESS HIGHER EDUCATION AND CONTRIBUTE TO THE AREA’S FUTURE PROSPERITY AND GROWTH.”

University of Cumbria Vice Chancellor, Professor Julie Mennell

BARROW LEARNING QUARTER

Cumbria is home to a thriving advanced manufacturing hub, with our new Barrow-in-Furness campus set to build on this with degree programmes that are aligned with the needs of local employers.

The campus will be positioned at the heart of the Barrow Learning Quarter and is one of seven projects being developed as part of the Brilliant Barrow programme that will transform the area and ensure it thrives as a great place to live, work, and visit.

In recognition of Barrow’s historic and ongoing involvement in the marine and defence industry, our new campus building will echo the shape of a submarine.

In partnership with:

BAE SYSTEMS

CARLISLE CITADELS CAMPUS

Our latest transformational project will see the construction of a new flagship campus within the city of Carlisle. A gateway location to the city, our new campus in the heart of the city centre will boost the vibrancy and vitality of Carlisle and the wider region. Providing accessible, flexible teaching and academic facilities that are digitally advanced.

The development will include a modern, multi-purpose, 200-seater lecture theatre as well as a café, exhibitor space, and the Carlisle Business Exchange Centre.

STUDENT SUPPORT

Meet the Student Services team here at Cumbria!

Coming to university is such an exciting time, but we know it's also a big leap and that you may need some support with your academic skills, health and wellbeing, money management, and more. We are here to provide you with a wide range of high-quality support services, a friendly ear if you need help, and information, advice and guidance to maximise your potential for success whilst you are studying with us. We are made up of several different teams to ensure that we meet a variety of students' support needs. Through our ethos of "Live Well Learn Well", we recognise that to thrive and progress academically, students need to be well supported across both their academic and non-academic pursuits. Visit cumbria.ac.uk/student-support to find out more.

Academic Skills Support

University-level study can seem daunting, but we understand these challenges and are here to help you navigate them. Our support offer begins before you even start your course — our Head Start academic skills courses will develop your confidence and ease you into your studies.

Our Skills@Cumbria team works with your tutors to make sure you've got the reading lists and

resources needed for your course. Our wide range of online resources is supplemented by timetabled workshops, webinars, and group or 1-to-1 support sessions that cover literature searches, referencing, academic writing, and more.

Throughout the year, our Skills@Cumbria and Mental Health & Wellbeing teams also run a joint workshop on Managing Academic Stress & Anxiety.

Health & Wellbeing

The Mental Health & Wellbeing Team is committed to providing mental health support for all students. We want to ensure you get the most out of your university experience, whatever your circumstances may be.

Our team is made up of mental health professionals who can support you with a range of mental, emotional, and interpersonal issues.

We offer a variety of support services, including talking therapy, therapeutic groups, self-help tools, and workshops. Whatever your concern, we're here to help, so please don't hesitate to reach out.

Inclusion and Disability Support

The University is committed to supporting disabled students so they can participate in their programmes of study. To help us do this, we would encourage you to declare your disability or Specific Learning Difference as early as possible; for example, during the admissions process.

Our specialist Disability Support teams can work with you to establish your reasonable adjustment support needs, discuss any additional funding you may be eligible for, such as the Disabled Students' Allowance, and develop your Learning Support Plan.

Making Friends

We know that socialising is key to the university experience, and to your mental health. That's why we've created welcoming campus environments, complete with friendly student communities and inclusive societies and events. From Welcome Week to year-round Students' Union events and society meet-ups, there are plenty of opportunities to meet like-minded people and forge lasting friendships at Cumbria.

Your Career Starts Now

Your career doesn't start after you graduate, it begins the moment you become a student at Cumbria. We equip our students so that they have the competitive edge in the jobs market as soon as they leave us.

92% of our graduates go into employment or further study within 15 months of graduating, which means you'll be joining one of the top universities in the North West for graduate prospects (HESA Graduate Outcomes 2023). Your future outlook is bright beyond your studies with us.

Enriching Your Career Skills Alongside Your Studies

In addition to the amazing placements, partnership opportunities, and accreditations that our courses offer (which you can find out about on our course pages), you'll also have access to 'My Career Enriched' for the duration of your course. We can help you to make the most of your time at university and prepare you for your next steps after graduation. We offer:

- Access to graduate jobs, part-time work, work experience, industry placements, and paid internships.
- One-to-one advice, guidance appointments, and practice interviews.
- Careers fairs networking and employability events.
- Tailored feedback on your CV, cover letters, and application forms.
- Mini online career pathways to develop your employability skills.
- A wealth of information through our Career Discovery Feed.

- Practical workshops on CVs, applications, interviews, success in your chosen sector, options with your degree, job search skills, starting your own business, becoming a freelancer, and more.
- Business start-up advice and developing entrepreneurship skills.
- Information for disabled students on how to declare a disability, applying for work, communicating strengths, and requesting adjustments in the recruitment process.
- Our Career Ahead Employability Award, which helps you put all your skills into practice.

Supporting You After You Graduate

At Cumbria, our support does not end when we hand over your graduation certificate. For three years after you graduate, you'll continue to have access to all our careers services. In addition, you'll join the Cumbria Network (our central alumni hub), which gives you access to fantastic networking and mentoring opportunities.

Chaplaincy

The Chaplaincy team works within the ethos of a Cathedrals Group University to support and encourage staff and students on their journeys through life. Chapels on our Fusehill Street and Lancaster campuses are places of welcome and sanctuary, offering quiet, comforting spaces to all regardless of belief. Regular times of prayer, exploration of faith, and meditation are offered as well as spaces for conversation and listening. These can be accessed in situ or online.

Key Christian festivals and those of other faiths are acknowledged and supported, and students are encouraged to take time during their studies

to reflect on what makes a good life and to pursue a spirituality that will help them flourish and build good relationships with themselves and others.

Financial Support

We offer a range of grants, scholarships, and bursaries to support students from low-income households. If you experience delayed funding, unexpected financial emergencies, or financial difficulty during your course, the University of Cumbria Student Support Fund is available to help you. Our Students' Union can lend a hand too, with food pantries located at each of our campuses.

Library Services

Supporting your learning with access to thousands of books, journals, and electronic resource collections, our libraries provide a complete range of services and support to enhance your academic and study skills.

Our campus libraries are friendly, welcoming, and safe spaces for you to use and enjoy. Our supportive Skills@Cumbria team offers appointments, workshops, webinars, online resources, and videos on a wide range of topics, including referencing, searching skills, academic writing, and more.

We regularly increase our library resources, working with lecturers to provide the essential reading lists you need for your modules. We also encourage you to recommend books for the library to purchase for our collections as part of our 'Get More Books' and 'Reading for You' schemes.

YOUR HOME AT CUMBRIA

For many students, living in halls is an integral part of the university experience. If you are moving away from home for the first time, our halls provide a safe environment for you to live, study, and socialise.

The university provides a range of campus accommodation to cater for all budgets, offering excellent value for money across a range of room type options, so we're sure you'll find your home-from-home at Cumbria.

Imagine waking up to the smell of coffee brewing and the sound of flatmates chatting. Leave the comfort of your warm, cosy bed and open your curtains to a view of one of our green campuses and historic cities, or the stunning London city skyline, or maybe the rolling Lake District hills. Our accommodation is where lifelong friendships are made, culinary inventions are shaped, and memories of celebrations are created. Whichever location you choose, this is your home and your story.

*Please note: Prices are not currently available for 2025/2026. The prices listed here are for 2024/2025 and could be subject to change.

A DAY IN THE LIFE

LET'S GO ON A BIKE RIDE

Maybe it's through the busy streets of London, or the cobbled paths of Lancaster. Perhaps you're on a mountain bike, speeding down a hillside in Ambleside.

LET'S GO TO AN ART GALLERY

Maybe you've walked to Tullie House in the bustling centre of Carlisle, or perhaps you've jumped on a bus to see the latest exhibit at the Tate Modern in London. Maybe you've made your own piece of art and are off to see it on display at the Vallum Gallery on our Brampton Road campus. Perhaps you've walked into Lancaster city centre to enjoy music, crowds and cocktails on 2-for-1.

LET'S GO OUT FOR DRINKS

Maybe you've wandered into a cosy Lake District pub and are enjoying a local brewery beer and a bowl of chips by the fire. Perhaps you've gone on a pub crawl around all the different pockets of London and are dancing for hours in some new secret club.

READY TO EMBRACE THE ADVENTURE?

There's so much to see and do around our campuses... days spent rock climbing, walking, hiking, caving, or canoeing; trips to cafés, food markets, parks, shopping centres, restaurants and the cinema; weekends spent camping, attending local festivals, or even volunteering.

Whatever your interests, hobbies, or ideas of adventure, one thing is for certain: life is full of excitement at Cumbria.

UCSU STUDENTS' UNION

Societies & Groups

Events

Hello! We are the University of Cumbria Students' Union (UCSU), and it's our mission to represent and support you in any way that we can. We're a charity set up by and for students, and we work independently with the university. We'll help you to develop and achieve your dreams, collaborating with our partners to deliver the best possible student experience during your time at the University of Cumbria.

We are headed up by an Executive Committee, which is led by three full-time Student Officers as well as Campus Reps, all of whom are elected by you each year. It is the job of this team to be your voice at the highest levels of the university, helping to bring about any changes that you raise and celebrating the successes of our amazing student body.

Societies & Groups

We have a wide range of societies that cover everything from midwifery to paddle boarding, criminology to mountain climbing. Such student-led groups are here to help you continue a hobby you already love, discover a new past-time, or just meet like-minded people. If something you want to do doesn't already exist, we'll help you set it up.

Events

Events are offered both through UCSU and our Student Groups and include club nights, festivals, city events, volunteering fairs, workshops, training courses, and more. We aim to provide events and opportunities that everyone across the university community will enjoy. Scan the QR code below to view our upcoming events.

SPORTS, FITNESS & ACTIVITIES

SPORT AND ACTIVITIES

We want to ensure your wellbeing and mental health are being cared for, which is why we encourage all our students to have a healthy balance of work and play. Physical activity can help boost self-esteem, mood, sleep quality, and energy, so let's take a look at what you can do to keep fit and active during your time at university.

UoC Active offers a variety of facilities and services at our Ambleside, Carlisle, and Lancaster campus locations, with our sport and fitness centres catering for a wide range of activities through UoC Active Play. Our facilities also have air-conditioned fitness suites, with year-round class timetables offering Pilates, bootcamps, yoga, and strength and cardio sessions. Our Lancaster campus also has grass football and floodlit artificial turf pitches.

As well as affordable campus memberships, we offer great deals on premium membership packages, which include access to our partner facilities at Better Leisure and Salt Ayre Leisure Centre. UoC Active is also part of the BUCS UNIVERSAL Scheme, which allows access to fitness facilities at universities all around the country.

GROUPS & SOCIETIES

Through our Students' Union, we have a range of groups available to our students, including Women's Hockey, Mountaineering, Paddling, Christian Union, South Asian Society, Men's Hockey, and more. At each of our campus locations, we can also help you find groups and societies which are available to the wider community outside of the university. SU Sports teams also have the opportunity to take part in BUCS leagues.

GREAT OUTDOORS

If you are interested in outdoor pursuits, you are spoilt for choice by the huge range of opportunities available on your doorstep, including fell running, mountain biking and sailing. Our Ambleside campus is set in the heart of the Lake District, a UNESCO World Heritage site, meaning students have easy access to the best adventure playground.

OUR COURSES

Where will your story take you?

Will your story be one of changing the world or striving for the dream job you're passionate about? With a wide range of undergraduate courses to choose from at the University of Cumbria, we'll enable you to get into your chosen career.

Our undergraduate courses are usually three years of full-time study, however, we do offer top-up degrees for those who have a HND or Foundation Degree. We also offer an alternative pathway into studying a degree via our Integrated Foundation Year courses, which typically involve four years' full-time study to achieve an undergraduate degree.

You'll find full course information, including accreditations, modules and entry requirements, on our website: cumbria.ac.uk/courses. If you require any guidance with your university and course search, our Course Enquiries Team are here to help. They can provide advice on:

- Finding the right course for you based on your qualifications, experience, and interests
- Perfecting your university application
- Preparing for your admissions interview or prepping your arts portfolio
- Understanding your funding options, including student finance, scholarships, and bursaries

Contact our Course Enquiries Team on 01228 588 588 or send an email to enquirycentre@cumbria.ac.uk.

The following pages will give you a flavour of the courses we offer. Please see the Course Directory on pages 152 - 163 for an in-depth list of available courses and entry requirements.

UCAS DEADLINES FOR APPLICATIONS

May 2024 – The UCAS search tool displays 2025 courses. The adviser portal also opens for 2025 entry.

May 2024 – Registration for 2025 undergraduate applications goes live on UCAS.

September 2024 – The application window for 2025 entry opens. Completed undergraduate applications can be submitted to UCAS via the UCAS Hub.

October 2024 – The deadline for applications to Oxford, Cambridge and most courses in medicine, dentistry, and veterinary medicine/science.

January 2025 – The UCAS equal consideration deadline for the majority of undergraduate courses. Applications can still be sent after this, but providers cannot guarantee they'll give it equal consideration.

February 2025 – UCAS Extra opens. If you include five choices on your UCAS application but find yourself without any offers, or you decide to turn down the ones you do receive, you will be able to add another choice using UCAS Extra.

July 2025 – Clearing opens. If you don't receive any offers or you want to explore other universities and courses, you can search for vacancies in Clearing.

Note: Specific dates are unavailable at the time of printing. Please see the UCAS website for the most up-to-date information.

TYPES OF UNDERGRADUATE STUDY

We offer a variety of undergraduate courses to provide flexible study options and assist your journey into university.

BACHELOR (HONOURS) DEGREE

These degrees usually take three years to complete and depending on your subject of interest, you will be awarded one of the following:

- Bachelor of Arts – BA (Hons)
- Bachelor of Engineering – BEng (Hons)
- Bachelor of Law – LLB
- Bachelor of Science – BSc (Hons)

FOUNDATION AND TOP-UP COURSES

Our foundation degree courses (FdA or FdSc), are studied over two years on a full-time basis and are usually linked to a specific professional career. This type of course can be topped up to a full BA (Hons) or BSc (Hons) degree via a top-up course.

Our top-up courses allow you to top up your foundation qualification to a full degree by completing a further year, full-time course. These courses help students who have already completed a foundation degree, a HND or a DipHE course to gain their full Honours degree qualification.

QUALIFICATION LEVELS

8	Doctorate PhD, MPhil, DBA				
7	Master's Degree MA, MSc			Higher Apprenticeships	Degree Apprenticeships
6					
5	Undergraduate Degree BA, BSc, LLB, BEng	Diploma of Higher Education DipHE	Higher National Diploma HND		
4		Certificate of Higher Education Cert HE	Higher National Certificate HNC		
3	A Levels	BTEC Level 3 Nationals / T Levels	Foundation Degree FdA, FdSc	Advanced Apprenticeships	International Baccalaureate IB

INTEGRATED FOUNDATION YEARS

Laying the foundation for your dream career

Our Integrated Foundation Year courses are an amazing first step on your university journey. Incorporating an introductory year at the beginning of a full degree, they are designed to develop your study skills and build your confidence in university-level study.

At Cumbria, we offer a range of Integrated Foundation Years in areas such as Business, Health, Science and the Arts, so we're bound to have a course that matches your career ambition.

Who are Integrated Foundation Years for?

If you don't meet the entry requirements for a particular course, you don't feel ready to begin a three-year Honours degree, or you're returning to education after a break, then the Integrated Foundation Year route could be for you.

As well as developing essential academic skills such as independent study, writing, communication, and problem-solving, this extra year will allow you to adjust to campus and university life so you feel more prepared going into the first year of your degree. You'll also have the opportunity to get to know the people you'll be studying with and benefit from tailored support from your course team.

Learn more: www.cumbria.ac.uk/study/courses/foundation-courses/

Course Key:

- ▲ Integrated Foundation Year (IFY) Available

YEARS IN INDUSTRY

Apply your learning to the real world

A Year in Industry (also referred to as a Sandwich Placement) is a unique opportunity to gain hands-on experience in the workplace. If you're accepted onto one of our Year in Industry courses, you'll have the option of spending the third year of your degree on placement with an employer or organisation relevant to your field. Depending on the course you study, you might even have the chance to secure a work opportunity abroad.

Designed to develop your professional skills and build on the knowledge you've gained in your first two years at university, a Year in Industry is a valuable experience and can improve your chances of success when applying for graduate jobs.

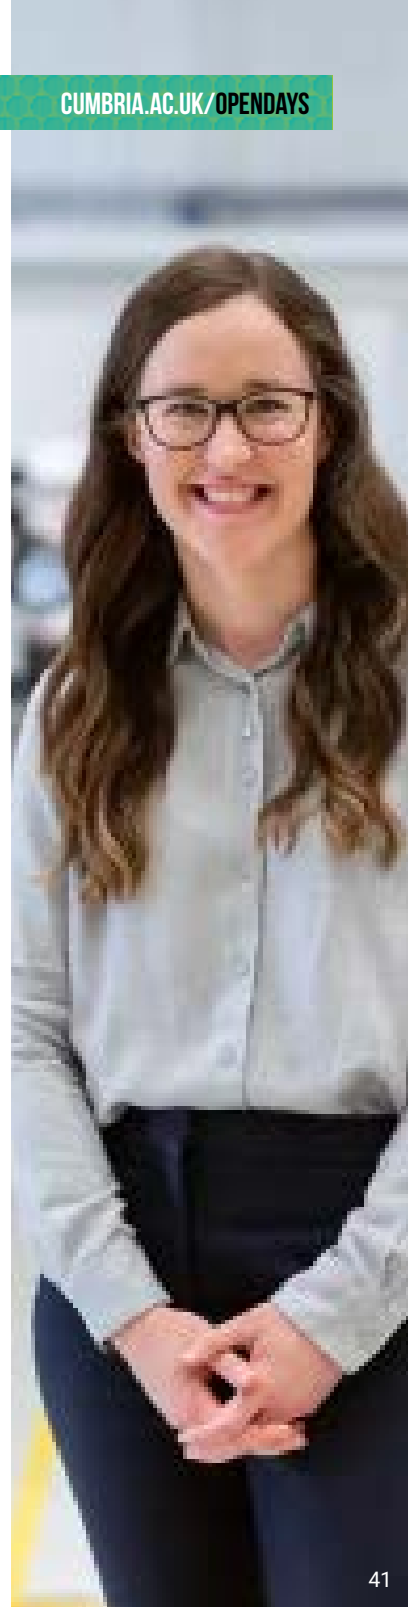

The University of Cumbria will support students in finding and applying for opportunities with relevant employers and organisations.

Benefits of a Year in Industry

- Develop the key employability skills graduate employers are looking for
- Gain an understanding of workplace culture and discipline
- Take on real responsibility and increase your confidence
- Expand your professional network
- Get industry insights and explore potential career options
- Learn from experienced professionals
- Apply your theoretical knowledge to real-world situations

Course Key:

- Sandwich Placement/ Year in Industry Available
- + Available With Placement

ADVANCED MANUFACTURING ENGINEERING

Partners:

BAE SYSTEMS

**Engineering
Council**

BAE SYSTEMS SCHOLARSHIP

The fantastic BAE Systems Scholarship is available for UK undergraduate students studying one of our qualifying courses!

Visit www.cumbria.ac.uk/study/bae-scholarship/ to learn more.

FIND OUT MORE

ADVANCED MANUFACTURING ENGINEERING, BENG (HONS)

■ Sandwich Placement/ Year in Industry Available

Do you want to be part of a fast-paced and constantly developing industry? Would you like to work for major employers with global connections? Then our Advanced Manufacturing Engineering course could provide the springboard you need to launch a fascinating and rewarding career.

Blending the technical focus of engineering with environmental awareness, management principles and cutting-edge IT skills, our BEng (Hons) Advanced Manufacturing course will teach you how to develop engineering solutions using new technologies.

Encouraging creativity and innovation, this degree programme has been designed in collaboration with BAE

Systems, embedding industry touchpoints within every module. This means some course content will be delivered by industry professionals or within an industrial setting. In the final year of the course, you will undertake an Integrated Engineering Project; an independent research project on a topic of your choice that is designed to integrate the knowledge you will have gained throughout the programme. You'll also have the chance to gain certifications or badges from software providers.

Our Advanced Manufacturing course will be taught at our brand-new Barrow campus, a purpose-built facility that has been designed with modern facilities and equipment.

MODULE EXAMPLES

- Engineering Design
- Mathematics and Computing
- Mechatronic Principles (Electrical and Mechanical)
- Applied Materials and Manufacturing
- Digital Manufacture
- Mathematics and Modelling
- Advanced Manufacturing Systems
- Operations Management
- Integrated Engineering Project

LOVE YOUR STORY

LENNON
BUSINESS MANAGEMENT, BA (HONS)

I came to study at the University of Cumbria as it was a university which offered me everything I needed, whilst having a welcoming and positive feeling on campus. Most universities seemed off putting and generally intimidating coming straight from college, but when I came to visit the campus here, I instantly felt welcomed and encouraged.

BUSINESS MANAGEMENT, BSC (HONS)

▲ Integrated Foundation Year (IFY) Available

Are you looking to hone your skills across the many facets of business? Do you want to discover how to shape yourself into a leader in order to kick-start your dream career?

This hands-on programme uses collaborative methods to ensure you graduate with all the skills to reach the top, giving you a real-world insight to the many strands of business, from marketing and project management to people management and consultancy. We are ranked top in the North West for producing entrepreneurs (Novuna 2023)

You will take a hands-on approach to learning the intricacies of a functioning business, applying theoretical knowledge

learnt in the classroom into real-world scenarios by simulating the implementation of business development or starting up a business. You will gain confidence and build your ability to support businesses through applied learning to prepare your transition into the work place. You will learn through a dynamic mix of lectures, tutorials, interactive workshops, guest speakers, and case study-informed learning.

The world of business is constantly evolving, and we aim to create business leaders that can think on their feet and solve problems through preparing you for success.

MODULE EXAMPLES

- Lead
- Communicate
- Collaborate
- Simulate
- Projects
- People
- Innovate
- Transform
- Consult

AFTER THIS COURSE YOU COULD...

Explore a diverse array of career possibilities with our programme opening doors to:

- Marketing Manager
- CEO
- Entrepreneur
- Finance Manager
- Human Resources Manager

Or you can explore postgraduate programmes for advanced opportunities in your field.

DURATION	LOCATION	UCAS POINTS	UCAS CODE	ADDITIONAL ENTRY REQUIREMENTS	ACCREDITATIONS
3 years	Lancaster, Barrow, London, Carlisle	104-112	N333		

GLOBAL BUSINESS MANAGEMENT, BSC (HONS) TOP-UP

Cultivate your leadership acumen, foster cross-cultural awareness and enhance your research capabilities to prepare you for a dynamic career on the global stage.

Based on our vibrant London campus, whether your schedule allows you to study in the daytime or evenings, this programme allows you to refine your leadership skills and unlock new career opportunities without overwhelming your existing commitments.

Experience guidance and inspiration from our research-active academics, each bringing a wealth of real-world

business expertise. Your tutors are dedicated to providing personalised support, helping you maximise your potential and reach new heights. Your learning will encompass methods such as workshops, fieldwork, and simulations, offering you the practical knowledge to apply beyond your studies.

Be connected with Cumbria's robust industry partnerships such as BAE, Rolls Royce and Sellafield and forge a network of connections that can help you to discover exciting job prospects.

COMPUTER SCIENCE, BSC (HONS)

+ Available With Placement

Are you interested in developing the technology of the future? Do you want to play your part in a dynamic and rapidly growing sector? Our Computer Science programme will give you a strong foundation in problem-solving, logical knowledge and critical thinking, helping you design software solutions that solve real-world issues.

The BSc (Hons) Computer Science degree is an innovative and exciting course that blends the technical focus of computer science with social and environmental awareness. You will explore computer systems, software and programming solutions, and cyber security as well as selected topics in business, management, and leadership.

Developed in collaboration with BAE Systems, industry touchpoints are embedded within every module, meaning

some course content will be delivered by industry professionals or within an industrial setting. Each year of the course you will have the opportunity to work on technical projects designed to build upon your learning. In the third year, you will undertake a Professional Project; a substantial and independent piece of research into a topic of your choice, related to one of your taught modules. You'll also have the chance to gain certifications or badges from software providers.

Our Computer Science course will be taught at our brand-new Barrow campus, a purpose-built facility that has been designed with modern equipment and facilities.

MODULE EXAMPLES

- Computing Platforms
- Problem Solving and Computational Thinking
- Designing Computing Solutions
- Enterprise Systems
- Managing Business Operations and Technology Strategy
- Programming and Developing Software Solutions
- Cyber Security
- Artificial Intelligence
- Emerging Technologies and Innovation

AFTER THIS COURSE YOU COULD...

Upon successful completion, you will be qualified to take the next steps towards a career in areas such as:

- Computer Science
- Cyber Security
- Artificial Intelligence Research or Engineering
- Business Management
- Software Development

DURATION	LOCATION	UCAS POINTS	UCAS CODE	ADDITIONAL ENTRY REQUIREMENTS	PARTNERSHIPS

LOVE YOUR STORY

MICHELLE
FILM & TV, BA (HONS)

The University of Cumbria stood out because of its unique offering. I was comforted by the close-knit community of a dedicated Arts campus, where lecturers and current students formed a supportive network. What set it apart for me was the opportunity to pioneer my own path, and to lead my creative projects.

ANIMATION & VISUAL EFFECTS,

BA (HONS)

Ever dreamt of working on the next blockbuster movie, an award-winning TV series or an immersive game that captivates the crowds? Our Animation and Visual Effects course is your gateway to mastering the art of bringing stories to life through breathtaking animations and cutting-edge visual effects.

Dive into a learning experience that blends creativity with practical skills. Our course doesn't just teach you – it transforms you into a versatile artist ready for the dynamic world of animation and visual effects. With a curriculum grounded in inclusivity, innovative storytelling and studio practice, you'll emerge as a professional who understands the pulse of the industry.

From day one, you'll be immersed in real-world techniques

and workflows. Our course is structured to evolve your skills progressively - starting with foundational know-how, advancing to specialised techniques, and culminating in a final project that showcases your unique artistic voice.

Our experienced academics, alongside industry professionals, will guide you through your educational journey. Engage in workshops and guest speaker lectures that not only enrich your learning but also help establish connection within the industry.

Our campus is your creative playground, equipped with cutting-edge technology and extensive resources. Whether you're animating frame-by-frame or experimenting with on-set or location production, our facilities are designed to support and amplify your creative exploration.

MODULE EXAMPLES

- Animation and VFX Pipelines
- Digital Narrative and Concept
- Virtual Stagecraft
- Script, Storyboard & Previs
- Experimental Narrative & Concept
- Animation and VFX Cinematography
- Research Brief
- Production Review
- Professional Studio Project

AFTER THIS COURSE YOU COULD...

As you embark on your journey with us, you're not just learning – you're creating a portfolio that's as unique as your imagination. By the time you graduate, you'll have a personal showcase, brimming with evidence of your technical proficiency, creative specialisations, and a diverse skill set in computer animation and visual effects. You'll step into the professional realm equipped to thrive in a spectrum of exhilarating career paths, including Animation Artist, Visual Effects Artist, Motion Graphics Designer, Film and TV Post-production Specialist, Game Developer- and more.

COMMERCIAL PHOTOGRAPHY,

BA (HONS)

▲ Integrated Foundation Year (IFY) Available

In a world where everyone has a camera, we'll equip you the skills to capture not just images, but impactful visuals that captivate, inspire, and influence audiences. By blending visual communication and creativity with technical expertise and business skills, you'll master the art of storytelling by capturing powerful photography for use in advertisements, brochures, websites, and other marketing materials.

This career-focused course blends both the technical and creative realms of photography, as well as business knowledge and confidence, preparing you for the fast-paced and intense world of commercial photography. You'll gain advanced in-studio and on-location photographic techniques, versatile camera skills, and digital post-production expertise to create impactful, client-ready images.

Learn from highly skilled photography tutors with experience in the commercial sector and have professional connections working with renowned brands such as Nike, Converse, JD Sports, Pfizer, and Panda London. You'll gain valuable industry knowledge and industry insight from their professional experience.

As a student practitioner, you'll have access to industry-standard photography facilities including four fully equipped photography studios with lighting and iMacs, large format and 3D printers, cutting-edge digital and analogue equipment, and a range of camera systems from 35mm analogue and high-end DSLR to medium format digital cameras.

MODULE EXAMPLES

- Photographic Image Capture
- Digital Image Production with Lighting Design
- Contemporary Image Theory
- Media and Moving Image
- Word and Voice
- Negotiated Live Project
- Blueprint of Practice
- Resolution of Practice
- Independent Research Paper

AFTER THIS COURSE YOU COULD...

During your studies you will have developed an attention-grabbing creative portfolio for your future career in commercial photography, which could be in advertising agencies, fashion studios, and editorial offices or freelancing.

FINE ART, BA (HONS)

▲ Integrated Foundation Year (IFY) Available

Art is more than a skill; it's a language of expression. Our course encourages you to delve deep into your creative psyche to develop art that is not only aesthetically pleasing, but also rich in meaning and context. Here, you'll learn to embed your personal experiences and perspectives into your work, making each piece a powerful reflection of your unique artistic voice.

On this interdisciplinary Fine Art course, you'll develop professional-level skills across disciplines such as drawing, painting, sculpture, printmaking, ceramics, photography, filmmaking, and digital media. Whether you prefer working with clay, paint, or digital tools, this course empowers you to experiment and express yourself through your chosen medium.

Our spacious studios offer dedicated spaces for your creativity, providing you with a blank canvas. Alongside a live drawing studio, we have fully equipped workshops for 3D printing, ceramics, woodworking, metalworking, textiles, and printmaking. Our technicians are always available for training and support in each workshop.

Our practicing artist tutors will support and inspire your studio practice, providing a deep understanding of Fine Art from historical, theoretical, and critical perspectives. You'll develop entrepreneurial skills and have opportunities to showcase your work locally and nationally, visit galleries, create your own space, and curate public exhibitions for valuable professional experience.

MODULE EXAMPLES

- Materials and Methods
- Application
- Collaborative Practice
- Enquiry 1: Artistic Autonomy
- Intersections
- The Professional Self
- Practice 1: Research Strategies
- Independent Research Paper
- Practice 2: Self-Designed Exploration

AFTER THIS COURSE YOU COULD...

WILDLIFE MEDIA, BA (HONS)

▲ Integrated Foundation Year (IFY) Available

Unleash your passion for wildlife and media storytelling by transforming them into impactful messages that ignite, inspire, and influence others. Explore the fascinating world of wildlife biodiversity, habitat, and behaviour, while diving into the theory and practice of film and photography.

Cumbria is renowned for its diverse landscapes and biodiversity, offering an extensive range of habitats for numerous species including, otters, deer, birds and endangered species such as red squirrels and voles. As you study within a World Heritage Site, also near the English Lake District, you will get plenty of opportunities to immerse yourself in hands-on practical experiences through field trips and visits that will enhance your studies.

Our strong partnerships with notable wildlife organisations will allow you to collaborate and network with leading industry practitioners and groups, such as Cumbria Wildlife Trust, RSPB, WWT, AONB and others.

You'll be encouraged to embrace challenges, push boundaries, and embark on a journey of self-discovery within a supportive creative environment. You'll produce experimental films; curate captivating photography exhibitions; produce thought-provoking documentaries and take the lead planning your own expedition. You'll develop confidence and build a versatile skill set that aligns with your interests, paving the way for a successful future career.

MODULE EXAMPLES

- Media Craft Skills
- Developing Photography Practice
- Naturalist Skills
- Documentary
- Interpreting Animal Behaviour for Media
- Wildlife Photography
- Graduate Project
- The Application of Media in Conservation
- Research Project

AFTER THIS COURSE YOU COULD...

Throughout your time at the university, you'll have built an impressive and strong portfolio showcasing your creativity, skills, technical experience and knowledge. Graduates can pursue careers in a wide range of fields, including wildlife photography (advertising, editorial, and portraiture), wildlife film TV, graphic design, teaching, and many more.

EDUCATION STUDIES,

BA (HONS)

Enthusiastic about making a lasting impact through the power of education? Eager to ignite inspiration across diverse age groups, backgrounds, and opportunities? Immerse yourself in the transformative realm of our Education Studies programme and breathe life into your passion.

This course is designed around cutting-edge research and addresses pressing societal issues, empowering students to delve into aspects of the subject that truly captivate them.

On this course, you will gain valuable real-world experience on our engaging work-based placements, giving you the

opportunity to develop practical skills that will boost your employability.

Our curriculum is designed to cultivate a critical understanding of educational environments, exploring approaches intertwined with social justice, social policy, and educational diversity. You will also enjoy the benefits of a supportive learning environment, where a personal tutor and intimate class sizes create a supportive community, ensuring you receive personalised guidance throughout your academic journey.

MODULE EXAMPLES

- Introduction to Safeguarding in Education
- An Introduction to the History and Sociology of Education
- Key Issues in Education Today
- Psychology of Education
- Educational policy and contexts
- Education, Faith and Philosophy
- Equality, Diversity and Inclusion
- Educational Leadership and Management
- Current Issues and International Perspectives

PRIMARY AND EARLY YEARS EDUCATION (3-11 YEARS) WITH QTS*, BA (HONS)

Ready to impact young learners' lives and inspire the next generation? This comprehensive and forward-thinking programme is designed for individuals passionate about shaping the development and education journey of children aged 3-11. Upon completion, you will be equipped to be a dynamic, skilled educator, proficient in teaching all National Curriculum subjects for this age group.

This programme has been structured to blend a rich mix of academic theory with the necessary practical, training and experience to achieve Qualified Teacher Status* (QTS*). With this qualification, you can immediately pursue teaching roles, ready to positively impact the lives of children.

During the programme, you will gain hands-on teaching

experience with 24 weeks of school-based placements, which offer real-world classroom exposure and skill development. Unique experiential placements extend learning beyond traditional environments, ensuring a well-rounded educational experience, while assessments support you in developing your own areas of interest, allowing you to pursue your educational passions.

Our programme is taught in intimate groups, allowing for personalised attention and many opportunities for collaboration with peers and tutors. This supportive learning environment will enhance your learning experience and prepare you for a fulfilling career in education.

* QTS is ratified by the University of Warwick

MODULE EXAMPLES

- Learning and Teaching and Research
- Beginning to Teach English
- Beginning to Teach Math's
- Developing EYFS and Curriculum Carousel
- Writing and Creativity
- Developing Math's
- Responding to a Dynamic Education Landscape
- Effective Monitoring & Assessment of Diverse Learners in English
- Investigating Learning & Teaching: Specialism Research

AFTER THIS COURSE YOU COULD...

This programme includes QTS (Qualified Teacher Status), so you can start applying for your first teaching position while you're still studying with us. This programme offers a wide range of career opportunities within the field of education, including primary school teacher, early years educator, educational consultant, educational publishing, and further study or research, to name a few.

DURATION	LOCATION	UCAS POINTS	UCAS CODE	ADDITIONAL ENTRY REQUIREMENTS	ACCREDITATIONS
3 years	Lancaster, London, Carlisle	112-128	X124	DBS and medical checks required; GCSE English, Maths and Science at grade 4/C or above	

PRIMARY EDUCATION: INCLUSION WITH SEND WITH QTS* (5-11 YEARS), BA (HONS)

Are you passionate about ensuring equal access to quality education for every child, regardless of their background? Do you want to help children overcome barriers in their learning journey? Our programme will empower you to become a Primary School Teacher with a significant focus on supporting pupils with Special Educational Needs and/or Disabilities (SEND).

You will develop specialist skills, knowledge and expertise in teaching children who face barriers to education by gaining a comprehensive understanding of the latest developments in inclusive education.

We have a strong emphasis on practical experience, with at least 24 weeks of school placements, including specialist provision if you choose. These placements provide you with valuable real-world experience and the opportunity to apply

your knowledge in a classroom setting.

Our approach to teaching and learning is student-centred, providing a flexible and modern experience. We employ a diverse range of methods, including student-led seminars, debates, case studies, and roleplay, all aimed at fostering active and independent learning. Rated 'Good' by OFSTED, 2023.

Our supportive and friendly tutors are here to guide and support you, helping you develop confidence and expertise in inclusive education. With personalised attention, we prioritise your individual needs, ensuring a nurturing and individual learning experience.

* QTS is ratified by the University of Warwick

MODULE EXAMPLES

- Inclusive Teaching and Learning modules
- Teaching and Learning in Phonics and early reading modules
- Teaching and Learning in SEND and Inclusion

AFTER THIS COURSE YOU COULD...

This programme includes QTS (Qualified Teacher Status), so you can start applying for your first teaching position while you're still studying with us. This programme offers a wide range of career opportunities within the field of education, including inclusion teacher, SEND coordinator, SEND specialist teacher, educational consultant, and further study or research, to name a few.

HEALTHCARE PROFESSIONS

Accreditations & Partners:

LOVE YOUR STORY

ALIYAH
CHILDREN'S NURSING, BSC (HONS)

The university combined our classes with gaining hands-on experiences in the simulation labs. If it wasn't for the simulation suite, I would have really struggled to start working on a real-life ward. But the university really prepared me practically and through theory.

LOVE YOUR STORY

ASSISTANT PRACTITIONER (HEALTH), FDSC

Are you a health support worker looking to advance your career? In just two years, this programme will enable you to become an assistant practitioner, with excellent progression opportunities to become a nurse, radiographer, midwife, occupational therapist, and physiotherapist through further study.

Specialise in your preferred area with a choice of five pathways: health and social care, radiography, midwifery, occupational therapy, and physiotherapy.

Throughout the course, you will balance one study day per week with employment in an area relevant to your pathway. On your weekly study days, you will engage in a dynamic online learning environment with live, online sessions. These offer real-time, participatory learning experiences that closely emulate face-to-face teaching, enabling you to

engage with students across different pathways, as well as studying modules specific to your pathway field.

Beyond the virtual classroom, you will apply your theoretical learning directly within the workplace. Working closely with registered healthcare professionals, you will enhance your clinical skills and deepen your understanding of healthcare in real-world contexts.

Our Assistant Practitioner (Radiography) pathway stands out as the only programme in the UK offering a route from assistant practitioner to radiographer, enabling you to qualify as a radiographer after just one year of further study once you have completed the FdSc Assistant Practitioner degree. The other pathways also have their own progression opportunities to elevate your career following your foundation degree.

MODULE EXAMPLES

- Introduction to Professional Practice
- Service User Journey 1
- Applied Biological Sciences 1
- Applied Biological Sciences 2
- Leadership Management and Quality
- Professional Studies

AFTER THIS COURSE YOU COULD...

Upon successful completion, you will be qualified to work as an assistant practitioner in your chosen field of practice: radiography, midwifery, occupational therapy, physiotherapy, and health and social care.

You will also be able to continue studying to become a diagnostic radiographer after just one year of further study; an occupational therapist, physiotherapist or nurse after two years of further study; and a midwife after three years.

DURATION	LOCATION	UCAS POINTS	UCAS CODE	ADDITIONAL ENTRY REQUIREMENTS	ACCREDITATIONS
2 Years	Hybrid (Online and Work-Based)			Evidence of study at A-level or equivalent, or an A4 written explanation of why you are ready for study at FdSc level signed and agreed by your manager; GCSE English and Maths at grade 4/C or above	Radiography Pathway: 

DIAGNOSTIC RADIOGRAPHY, BSC (HONS)

Top-Up Course Available

▲ Health and Social Care Integrated Foundation Year (IFY) Available

Diagnostic radiographers use advanced technology to take images inside patients' bodies, helping to diagnose illness and injury, and enabling the most appropriate treatment to be provided. Our degree will equip you to become a diagnostic radiographer registered with the Health and Care Professions Council.

Our industry-active tutors are dedicated to teaching you current knowledge and insights in medical imaging. On campus, you will develop your skills and build your confidence in safe and supportive learning environments using our specialist labs, which replicate the real-life experiences you'll have on placement. You will have access to £2 million worth of digital imaging equipment, including newly updated AGFA x-ray rooms and Siemens x-ray rooms, in our cutting-edge facilities.

You will also spend approximately half of your course on clinical placements covering a range of clinical imaging techniques such as projectional radiography, computerised tomography, and magnetic resonance imaging, with some clinical time in areas such as radionuclide imaging and mammography.

We have strong links with local placement providers, including NHS hospitals and independent medical imaging service providers. Our department also has links with leading specialist centres such as The Christie Hospital, one of Europe's leading cancer centres.

The NHS Learning Support Fund, offering at least £5,000 per year, is available to eligible students. For more information and details of eligibility, visit www.nhsbsa.nhs.uk/lisf.

MODULE EXAMPLES

- Science and Radiation Protection
- Imaging Technology 1
- Applied Clinical Radiography 1
- Applied Anatomy and Pathophysiology and Imaging 1
- Human Science and Patient Care 2
- Research Methods and Investigations used in Professional Practice
- Focused Radiological Practice 1 (Theory)
- Image Evaluation
- Preparation for Professional Practice

AFTER THIS COURSE YOU COULD...

Upon successful completion, you will be eligible to register as a diagnostic radiographer with the Health and Care Professions Council (HCPC). Radiographers have excellent career paths with excellent opportunities for progression, working in areas such as: MRI scanning, nuclear medicine, ultrasound, x-ray – interventional radiography/radiography reporting, computerised tomography (CT), radiography research, and equipment application specialist for medical imaging equipment manufacturers.

DURATION	LOCATION	UCAS POINTS	UCAS CODE	ADDITIONAL ENTRY REQUIREMENTS	ACCREDITATIONS
3 years	Carlisle, Lancaster	112–120	B821	DBS and medical checks required; GCSE Physics or Combined Science at grade 4/C or above	

OCCUPATIONAL THERAPY, BSC (HONS)

▲ Health and Social Care Integrated Foundation Year (IFY) Available

Occupational therapists promote health and wellbeing. They work closely with individuals and groups, empowering them to address barriers that prevent them from engaging in everyday activities, identifying solutions and enabling them to lead the lives they want to lead.

This degree, accredited by the Royal College of Occupational Therapists, will equip you to become an occupational therapist registered with the Health and Care Professions Council.

Our programme responds to the ever-changing world of health and social care practice. You will adapt to – and actively shape – the varied settings in which people's occupational needs are addressed.

Throughout, you will be fully supported by our team who will get to know you personally and teach you the latest insights

in occupational therapy. On campus, you will develop your skills and confidence in nurturing learning environments using our simulation facilities, including our purpose-built 'home' room and mock ward.

With at least 1,000 hours of practical placement experience, you will immerse yourself in real-world practice working with children, adults and older adults with physical, social and mental health challenges. We work closely with local NHS Trusts and other organisations to offer quality work placements in NHS hospitals, health and day centres, care homes, councils, and private, voluntary and independent sector organisations.

The NHS Learning Support Fund, offering at least £5,000 per year, is available to eligible students. For more information and details of eligibility, visit www.nhsbsa.nhs.uk/lsf.

MODULE EXAMPLES

- Exploring Occupational Beings and Engagement
- Occupational Therapy Professional Practice
- Practice-Based Learning in Simulation
- Developing Occupational Possibilities
- Global Occupations
- Developing Research Skills
- Advancing Research skills
- Advancing Occupational Therapy Practice
- Advancing Future Leaders in Occupational Therapy

AFTER THIS COURSE YOU COULD...

Upon successful completion, you will be eligible to register as an occupational therapist with the Health and Care Professions Council (HCPC) and apply for membership of the Royal College of Occupational Therapists (RCOT). You will be qualified to work in a range of settings, including:

- NHS
- Councils
- Private, voluntary and independent sector organisations

DURATION	LOCATION	UCAS POINTS	UCAS CODE	ADDITIONAL ENTRY REQUIREMENTS	ACCREDITATIONS
3 years	Carlisle, Lancaster	112–120	B920	DBS and medical checks required; GCSE English at grade 4/C or above	 

PARAMEDIC SCIENCE, BSC (HONS)

As the first responders to emergencies, paramedics have a unique and vital role within healthcare, dealing with all aspects of pre-hospital emergency and urgent care. Every day is different, with the opportunity to make a crucial difference in the local community. Our Paramedic Science degree will equip you for an exciting and rewarding career as a paramedic registered with the Health and Care Professions Council.

Learning from a diverse teaching faculty with a variety of NHS practice experience and expertise, you will obtain the knowledge and clinical skills paramedics need to treat and manage patients in the pre-hospital environment.

You will engage in regular practical learning using our simulation facilities, including our simulated ambulance,

mock hospital ward, and mock patient residence. You will also practise alongside other emergency services and professional groups during high-fidelity simulation events, station-based inductions and vehicle extraction exercises. Our Major Incident Day will enable you to work with policing and forensic students to respond to a series of realistic simulated crimes and emergency scenes.

Alongside this, you will gain placement opportunities in settings such as the ambulance service, emergency departments, mental health, end-of-life care, hospital theatres, and residential homes.

The NHS Learning Support Fund, offering at least £5,000 per year, is available to eligible students. For more information and details of eligibility, visit www.nhsbsa.nhs.uk/lsf.

MODULE EXAMPLES

- Developing Person-Centred Care in Paramedic Practice 1
- Physical and Clinical Sciences
- Professionalism and Followship
- Developing Person-Centred Care in Paramedic Practice 2
- Clinical Practice 2
- Social Health Behavioural Sciences
- Understanding Primary Care
- Contemporary Issues in Paramedicine
- Leadership and Management

AFTER THIS COURSE YOU COULD...

Upon successful completion, you will be eligible to register as a paramedic with the Health and Care Professions Council (HCPC). You will be qualified to work in a variety of settings including:

- Acute and primary care
- NHS ambulance services
- Private sector
- Sporting sector

DURATION	LOCATION	UCAS POINTS	UCAS CODE	ADDITIONAL ENTRY REQUIREMENTS	ACCREDITATIONS
3 years	Lancaster	112–120	B780	DBS and medical checks required; A-level in Natural or Social Science; GCSE English, Maths and Science at grade 4/C or above achieved at point of application	

PHYSIOTHERAPY, BSC (HONS)

Physiotherapists provide vital treatments and interventions to improve mobility, reduce pain and promote wellbeing – from helping someone recover from an injury, to managing a respiratory or neurological condition. This programme provides the skills and experience needed to qualify as a physiotherapist registered with the Health and Care Professions Council.

Working closely with qualified physiotherapists, you will learn the practical skills needed to diagnose and manage musculoskeletal, respiratory and neurological conditions. Our curriculum spans diverse practice areas, from acute hospital settings to patient care in the home, equipping you for the varied demands of your future career.

Closely supported by our academics, you will gain a strong

theoretical understanding of physiotherapy, complemented by hands-on immersive experiences in our physiotherapy facilities and simulation suites. This blend of classroom-based theory, practical skills classes and simulated learning is designed to enhance your confidence in comfortable learning environments before progressing to real-life cases.

You will also complete at least 1,000 hours of work-based practice placements, taking advantage of our excellent employer links. These placements will allow you to experience the full spectrum of physiotherapy specialisms, preparing you for the many directions your career can take.

The NHS Learning Support Fund, offering at least £5,000 per year, is available to eligible students. For more information and details of eligibility, visit www.nhsbsa.nhs.uk/lsf.

MODULE EXAMPLES

- Core Physiotherapy Assessment and Management Skills
- Musculoskeletal Anatomy and Movement
- Pathophysiology for Contemporary Physiotherapy
- Musculoskeletal Pathology and Treatment
- Neurological Pathology and Treatment
- Cardiovascular Pathology and Treatment
- Management of Complex Conditions
- Leadership and the Global Practitioner
- Contemporary Issues and Advancing Physiotherapy

AFTER THIS COURSE YOU COULD...

Upon successful completion, you will be eligible to register as a physiotherapist with the Health and Care Professions Council (HCPC) and you will be accredited by the Chartered Society of Physiotherapy (CSP). You will be qualified to work in a variety of settings including:

- NHS
- Private sector
- Sporting sector

DURATION	LOCATION	UCAS POINTS	UCAS CODE	ADDITIONAL ENTRY REQUIREMENTS	ACCREDITATIONS
3 years	Carlisle	120–128	B160	DBS and medical checks required; 40 UCAS points in A-level Biology or PE; GCSE English, Maths and Biology/Combined Science at grade 4/C or above	 

MIDWIFERY, BSC (HONS)

Launch a rewarding career as a midwife with specialist vocational training and dedicated learner support on our Midwifery degree.

At the heart of this programme is a team of passionate lecturers who bring invaluable clinical experience to their teaching. Committed to your success, they provide excellent pastoral support to ensure you maximise your potential during your degree. Theoretical teaching is based on the latest evidence and research, using modern teaching methods and technology to create a vibrant and engaging learning experience.

The midwifery profession is brought to life on our campus with our clinical skills and simulation facilities. You will

experience simulated ward areas, our midwifery birthing suite and cutting-edge immersive simulation room, which offer safe and supportive environments for you to develop your skills and confidence under the guidance of our experienced academic team.

A hallmark of our Midwifery degree is the emphasis on practical experience. You will spend half of your course – equivalent to 2,300 hours – engaged in real-world practice in a range of settings, including community and hospital.

The NHS Learning Support Fund, offering at least £5,000 per year, is available to eligible students. For more information and details of eligibility, visit www.nhsbsa.nhs.uk/lsf.

MODULE EXAMPLES

- The Midwife as Professional 1
- The Midwife as Scholar 1
- Universal Care 1
- Midwifery Practice 2
- The Midwife as Professional 2
- Additional Care 2
- Midwifery Practice 3
- Physical Assessment and Management of the Newborn
- The Midwife as Scholar 3

AFTER THIS COURSE YOU COULD...

Upon successful completion, you will be eligible to register as a midwife with the Nursing and Midwifery Council. You will be qualified to work in a range of settings, including:

- Hospitals
- Community healthcare

You will also have the opportunity to specialise later in your career.

DURATION	LOCATION	UCAS POINTS	UCAS CODE	ADDITIONAL ENTRY REQUIREMENTS	ACCREDITATIONS
3 years	Carlisle, Lancaster	120–128	B720	DBS and medical checks required; 40 UCAS points in A-level Biology or PE; GCSE English, Maths and Biology/Combined Science at grade 4/C or above	

NURSING ASSOCIATE, FDSC

Provides direct entry into the second year of our BSc (Hons) Adult Nursing, Children's Nursing, Learning Disabilities Nursing and Mental Health Nursing degrees

Would you like to become a nursing associate? Are you looking to become a nurse but not sure which specialism to choose?

On this foundation degree, you will work across all fields of nursing to register as a nursing associate with the Nursing and Midwifery Council in just two years. This programme is also the perfect stepping stone towards further training to qualify as a registered nurse.

As a nursing associate, you will play a vital role in the nursing team, working closely with healthcare assistants and registered nurses across adult, children's, learning disabilities, and mental health nursing. Our expert tutors will deliver theoretical teaching rooted in the latest evidence and

research, and will support you throughout the programme to help you reach your full potential.

On campus, you will immerse yourself in a range of nursing scenarios using our clinical skills and simulation facilities. These include simulated ward areas, high-dependency care areas, home spaces, and our cutting-edge immersive simulation room.

This simulated learning will prepare you for clinical placements, where you will spend half of your degree gaining valuable real-world experience in settings such as hospitals, nursing homes, GP surgeries, and clinics.

MODULE EXAMPLES

- Applied Biological Sciences for Health
- Concepts of Health and Social Policy
- Introduction to Nursing Associate Practice
- Pharmacology and Medicine Therapeutics
- Living with Long Term Conditions Across the Lifespan
- The Nursing Associate as Leader

AFTER THIS COURSE YOU COULD...

Upon successful completion, you will be eligible to practise as a nursing associate registered with the Nursing and Midwifery Council. You will be qualified to work in:

- Adult nursing
- Children's nursing
- Learning disabilities nursing
- Mental health nursing

You will also be able to complete further training to qualify as a registered nurse through a top-up course or degree apprenticeship.

DURATION	LOCATION	UCAS POINTS	UCAS CODE	ADDITIONAL ENTRY REQUIREMENTS	ACCREDITATIONS
3 years	Carlisle, Lancaster		B750	DBS and medical checks required; NVQ level 3 or equivalent portfolio of evidence (as determined by the programme leader); GCSE English and Maths at grade 4/C or above	

NURSING/REGISTERED NURSE: ADULT NURSING, BSC (HONS)

▲ Health and Social Care Integrated Foundation Year (IFY) Available

Are you passionate, caring, and looking to make a real difference to others? Start an exciting journey to becoming an adult nurse with the University of Cumbria.

This course is designed to give you the perfect balance of theory and practice needed to register with the Nursing and Midwifery Council and practise as an adult nurse.

Our academic team are experienced practitioners with a wide range of clinical backgrounds. As well as delivering theoretical teaching based on the latest research and informed by patients' experiences, they will support you throughout your degree to ensure your student experience is fulfilling and enjoyable.

On campus, you will immerse yourself in our student nurse

community and take full advantage of our clinical skills and simulation facilities. These include our simulated ward areas, high-dependency care areas, home spaces, and cutting-edge immersive simulation room.

In addition to your academic study, you will spend equal time on placement within the clinical practice setting, including a wide variety of both inpatient, hospital and community placements throughout Cumbria and Lancashire. Our unique campus locations mean you will gain wide-ranging experience working with diverse patient groups in both rural and city areas.

The NHS Learning Support Fund, offering at least £5,000 per year, is available to eligible students. For more information and details of eligibility, visit www.nhsbsa.nhs.uk/lsf.

MODULE EXAMPLES

- Applied Biological Sciences for Health
- Concepts of Health and Social Policy

NURSING/REGISTERED NURSE: LEARNING DISABILITIES NURSING, BSC (HONS)

▲ Health and Social Care Integrated Foundation Year (IFY) Available

Would you like to empower children, young people and adults to gain their best quality of life? On this degree, you will play an important role in delivering specialised and inclusive support, improving healthcare, social inclusion, and quality of life for people with learning disabilities.

There is a strong emphasis on collaborative teaching from all fields of nursing, which is informed by clients' experiences of learning disability healthcare. Throughout your degree, our expert academic team will support you to ensure your experience is fulfilling and enjoyable.

On campus, you will immerse yourself in learning disability nursing by taking full advantage of our clinical skills and simulation facilities, which provide the opportunity to develop your skills and confidence in safe and supportive

environments. This includes using digital simulation as well as our simulated ward areas, high-dependency care areas, home spaces, and cutting-edge immersive simulation room.

You will also spend half your degree on clinical placements providing nursing care to individuals and families in a variety of settings. You will have many opportunities to network with local services, and you will become an advocate for people with learning disabilities. Our unique campus locations mean you will gain wide-ranging experience in both rural and city areas.

The NHS Learning Support Fund, offering at least £5,000 per year, is available to eligible students. For more information and details of eligibility, visit www.nhsbsa.nhs.uk/lsf.

MODULE EXAMPLES

- Applied Biological Sciences for Health
- Concepts of Health and Social Policy
- Introduction to Learning Disability Nursing
- Pharmacology and Medicines Therapeutics
- Recognition and Assessment of Physical and Mental Health of Clients with Learning Disabilities
- Values-Based Contemporary Learning Disability Nursing
- Clinical Decision Making and Complex Care
- Leading and Managing Health and Social Care
- Consolidating Awareness of Learning Disability Nursing

AFTER THIS COURSE YOU COULD...

Upon successful completion, you will be eligible to register as a learning disabilities nurse with the Nursing and Midwifery Council. You will be qualified to work with people across the lifespan, and specialise in areas such as: behaviour support, children and young people, health facilitation and continuing healthcare coordinator, intensive support services, mental health services/learning disability nurse, and end-of-life care.

DURATION	LOCATION	UCAS POINTS	UCAS CODE	ADDITIONAL ENTRY REQUIREMENTS	ACCREDITATIONS
3 years	Carlisle, Lancaster	104-112	B763	DBS and medical checks required; GCSE English and Maths at grade 4/C or above	

NURSING/REGISTERED NURSE: MENTAL HEALTH NURSING, BSC (HONS)

▲ Health and Social Care Integrated Foundation Year (IFY) Available

Would you like to improve the lives of individuals experiencing mental illness? Our Mental Health Nursing degree prepares you to become a skilled and highly sought-after mental health nurse.

You will immerse yourself in our student nurse community and take full advantage of our on-campus clinical skills and simulation facilities, which provide the opportunity to develop your skills and confidence in a safe and supportive environment. This includes using digital simulation as well as our simulated ward areas, high-dependency care areas, home spaces, and cutting-edge immersive simulation room.

Alongside this, you will spend equal time on clinical placement in a variety of settings, including inpatient hospital care, dementia care, community and specialist

mental health provision. You will care for individuals across the lifespan experiencing different mental health conditions, and our unique campus locations mean you will gain wide-ranging experience working with diverse patient groups in both rural and city areas.

Our academic team are experienced practitioners with a wide range of clinical backgrounds and academic interests. As well as delivering theoretical teaching based on the latest evidence and research, they will support you throughout your degree to ensure your student experience is fulfilling and enjoyable.

The NHS Learning Support Fund, offering at least £5,000 per year, is available to eligible students. For more information and details of eligibility, visit www.nhsbsa.nhs.uk/lsf.

PRE-HOSPITAL EMERGENCY CARE, CERTIFICATE HE

This one-year programme, run in partnership with the South Western Ambulance Service, provides a unique opportunity to enter the ambulance service and will help you gain access to a paramedic career pathway.

You will be taught by both university staff and experienced paramedics from a range of clinical backgrounds, with teaching delivered both online and face-to-face at Wiltshire Air Ambulance base. This blended learning provides flexibility, allowing you to fit your learning around other responsibilities, such as caring responsibilities.

Our expert academics will support you throughout the course, and you will join a close-knit community of learners.

As well as your academic training, you will gain real-world experience of pre-hospital emergency care through placements with the South Western Ambulance Service in Bristol, Wiltshire, Somerset, or Dorset.

To prepare you for employment within the ambulance service, you will also complete blue light training (the emergency driving qualification) as part of the course.

MODULE EXAMPLES

- Developing Person-Centred Care in Paramedic Practice 1
- Physical and Clinical Sciences
- Clinical Practice 1
- Professionalism and Followship
- Introduction to Research and Evidence-Based Practice

AFTER THIS COURSE YOU COULD...

On successful completion of the course, you will be offered a role as:

- Emergency care assistant with the South Western Ambulance Service (subject to pre-employment checks)

PSYCHOLOGY, BSC (HONS)

▲ Integrated Foundation Year (IFY) Available

Do you enjoy investigating and debating ideas? Explore human behaviour and develop valuable graduate skills with our Psychology degree, accredited by the British Psychological Society.

This programme provides an engaging exploration of human behaviour, cognition, advanced research methods, and hands-on experiential problem-based learning.

You will explore human experience across a range of contexts and lifespans, from understanding the biological basis of behaviour to questioning the impact of social media on child development. Part of your degree course will be practical, focusing on research techniques, qualitative, quantitative and mixed methods, data handling and analysis skills, laboratory reports, and communication skills.

Our software and equipment for collecting experimental

data includes Biopac data acquisition system, MindWave Neurosky headsets used to study and analyse brainwave patterns, and E-prime software for designing and running psychological experiments.

Lectures and seminars are taught by passionate academics, all of whom are researchers and practitioners, which allows you to benefit from their expertise and cutting-edge research. Our lecturers will get to know you individually to ensure you get the most out of your degree and feel supported throughout. You will also be encouraged to engage in career-enhancing voluntary work..

To help you reach your ideal future career, you will be able to shape your psychology degree to your own interests and ambitions. Your second year, for example, provides an opportunity to undertake an independent piece of work in an area of your choice.

MODULE EXAMPLES

- Psychology in Action
- Introduction to Data Analysis
- Introduction to Psychopathology
- Second year
- Development, Brain and Cognition
- Research Methods and Statistics
- Social and Community Psychology
- Individual Differences: Abilities, Personalities and Measuring Differences
- Psychological Literacy and Careers
- Counselling and Coaching Psychology

AFTER THIS COURSE YOU COULD...

Upon successful completion, you will be in an ideal position to take the next steps towards a career in areas such as:

- Clinical, forensic or educational psychology
- Health education and promotion
- Counselling
- Mental health support
- Human resources
- Prison or probation work

DURATION	LOCATION	UCAS POINTS	UCAS CODE	ADDITIONAL ENTRY REQUIREMENTS	ACCREDITATIONS

PSYCHOLOGY WITH COUNSELLING & PSYCHOTHERAPY, BSC (HONS)

▲ Integrated Foundation Year (IFY) Available

As one of the very few undergraduate Psychology with Counselling and Psychotherapy joint honours degrees in the UK that offers the opportunity to qualify as a professional counsellor, this course prepares you to help people in distress explore their difficulties, express their feelings and work towards a deeper self-awareness.

On this British Psychological Society accredited course, you will explore human experience across a range of contexts and lifespans, from understanding the biological basis of behaviour to questioning the impact of social media on child development. Our expert lecturing team are active in research and practices, and will ensure you feel supported throughout your degree.

You will have the opportunity to get involved in a range of extracurricular activities, including sessions led by experts in the fields of psychology and counselling.

Beyond the classroom, you will complete 100 hours of work experience in the community as a practising counsellor, which is a qualifying part of the course. Our excellent links with regional and national charities, not-for-profit organisations and penal institutions will open doors to practical experiences that refine your skills and elevate your job prospects.

There will be opportunities for you to focus on particular areas of interest, to tailor your learning to your own interests and career goals.

MODULE EXAMPLES

- Introduction to Data Analysis
- Foundational Counselling and Coaching Skills
- Counselling Skills: Preparation for Practice
- Development, Brain and Cognition
- Work Experience
- Intermediate Counselling Skills
- Individual Differences: Abilities, Personalities and Measuring Differences
- Work Experience
- Advanced Counselling Skills

AFTER THIS COURSE YOU COULD...

Upon successful completion, you will be eligible to apply for individual membership of the British Association for Counselling and Psychotherapy (BACP) and apply for registration, subject to passing the BACP Certificate of Proficiency. You will be qualified to work in areas such as:

- Counselling
- Psychotherapy
- Clinical, forensic or educational psychology
- Health education and promotion
- Human resources
- Prison or probation work

HEALTH & SOCIAL CARE, BSC (HONS)

▲ Integrated Foundation Year (IFY) Available

Would you like to work in the growing health and social care sector? Degree-level study is your key to career advancement. This Health and Social Care degree is your opportunity to deepen your knowledge of practice and policy while developing yourself both professionally and personally, and unlocking a range of progressive health and social care career routes.

With a focus on enhancing employability, you will explore diverse cultural values, ethical principles, and contemporary issues, to equip you with the skills needed to develop an impactful career across a diverse range of health and social care settings.

Our lecturers have a wealth of professional experience spanning a variety of health and social care professions, which they bring to the classroom to provide you with

insights into current trends and best practices in health and social care. This will be complemented by external speakers who will broaden your understanding of the diverse needs of the community.

To help prepare you for your future career, the programme has a focus on real-world and simulated real-world applications of topics studied. Simulated learning experiences, using both virtual reality and actors, will provide you with a safe environment to develop your confidence and practise and refine your skills.

You will explore complex ethical and professional dilemmas through case studies based on serious case reviews, as well as develop your critical thinking and decision-making abilities.

MODULE EXAMPLES

- Personalisation in Health and Social Care
- Development Through the Life Course
- Social and Political Influences on Policy and Practice
- Introduction to Advancing Mental Health Across the Healthcare Spectrum
- Equality, Diversity and Equity in Practice
- Leadership and Change
- Collaborative Working
- Contemporary Approaches and Fundamental Principles of Safeguarding Across the Lifespan
- Managing Self and Others

AFTER THIS COURSE YOU COULD...

Upon successful completion, you will be qualified to work in a wide range of areas, such as:

- Supporting independent living
- Respite care
- Healthcare support in hospitals
- Family support worker

This degree is also the perfect stepping stone towards further study to pursue a career in areas such as:

- Nursing
- Radiography
- Occupational therapy

SOCIAL WORK, BA (HONS)

Would you love to join a profession that makes a real difference in people's lives? A Social Work degree is the gateway to a meaningful career supporting people at every stage of life and across every community.

On this degree, approved by Social Work England, our lecturing team brings a wealth of professional practice experience and real-world knowledge to the classroom. Our team understands how to provide the best development opportunities to ensure you have a happy, healthy and successful career in this essential profession. This in-house team is complemented by frequent external speakers from local authorities and the voluntary sector, as well as people with lived experience of social work.

As a Social Work student, you will be immersed in a

fascinating journey where practical learning workshops are woven together with professional knowledge. We use the latest digital technology alongside physical simulation facilities, such as our mock hospital ward and flat where you will practise home visits. We will help you understand theories in social work and how to apply them to real-world examples of supporting people and promoting equality. You will then take this learning into the community through visits to the local authority and family court.

Alongside this, you will complete 170 days of professional work placements in years 2 and 3. This will allow you to translate your development into the workplace, fully supported by qualified practice educators as you build experience and gain confidence in your chosen profession.

MODULE EXAMPLES

- Law and Social Policy
- Politics, Discrimination and Social Justice
- Effective Work with People with Lived Experience
- Second year
- Professional Skills 2: Applying Models of Assessment and Intervention in Practice
- Working with Children – Exploring What Works
- Working with Adults – Bringing Alive the Rich Diversity of Work
- Critical Evaluation of Social Work Practice
- Organisational Factors and Leadership in Social Work

AFTER THIS COURSE YOU COULD...

Upon successful completion, you will be qualified to work in a range of settings and specialisms as a fully registered social work professional, including:

- Local authority teams supporting adults and children
- NHS organisations based in the community, as well as in hospitals and police stations
- Voluntary organisations ranging from family support to bereavement care, carers and crisis intervention services, therapeutic support services and people with additional needs

LOVE YOUR STORY

LUKE
SPORT, COACHING & PHYSICAL EDUCATION,
BA (HONS)

I enjoyed the challenge provided but value the utmost support that was provided throughout the course. I liked that there was the opportunity to work with lecturers who are really passionate about their subject and wanted to make me passionate about their subject too.

FIND OUT MORE

SPORT, COACHING & PHYSICAL EDUCATION, BA (HONS)

Top-Up Course Available
▲ Integrated Foundation Year (IFY) Available

Do you want to help others discover the physical, mental and social wellbeing impacts of sport?

On this course, you will examine the theory of physical education, sport and coaching pedagogy across the education, leisure and community sectors. You will build on this with a focus on teaching and coaching, and our academic team will ensure you feel fully supported throughout the programme.

Teaching will be complemented by practical sessions using facilities including our sports hall and performance laboratories, as well as the Lake District. You will also

complete approximately 50 hours of work experience and gain experience in schools, clubs and community groups. We have strong links within the sport industry, including with professional sport clubs and national governing bodies of sport.

There is a strong focus on employability and personal enhancement throughout the course. You will have the opportunity to complete a series of additional qualifications, at no extra charge, which are highly valued by employers and will help you secure your dream job once you graduate.

MODULE EXAMPLES

- Developing the Practitioner Toolkit
- Principles of Human Movement and Function
- Multi-Skills Development in Physical Education and Sport
- Delivering Sport and the Physical Education Curriculum
- Leadership and Relationships in Sport
- Work-Based Learning
- Independent Investigative Project
- Outdoor and Adventurous Activities
- Club and Coach Development

AFTER THIS COURSE YOU COULD...

Upon successful completion, you will gain Chartered Institute for the Management of Sport and Physical Activity (CIMPSA) accreditation. Our graduates have success pursuing careers in areas such as:

- PE teaching
- Sport development
- Event management
- Performance analysis
- High-performance coaching
- Community coaching

DURATION	LOCATION	UCAS POINTS	UCAS CODE	ADDITIONAL ENTRY REQUIREMENTS	ACCREDITATIONS
3 years	Lancaster	104-112	C604	DBS check required; GCSE English and Maths at grade 4/C or above	

SPORT CONDITIONING & PERFORMANCE ANALYSIS, BSC (HONS)

▲ Integrated Foundation Year (IFY) Available

Help others reach their full performance potential and dreams of success at all levels of sport – from grassroots to elite performers – on our Sport Conditioning and Performance Analysis degree.

Do you have a passion for using scientific research to help others achieve their sporting and fitness goals? On this programme, you will gain high-quality, profession-specific training delivered by our supportive academic team, in industry-standard performance and conditioning facilities. These include our performance analysis suite, strength and conditioning room, human performance lab and sports facilities.

We have excellent links with professional sports clubs and national governing bodies, through which you will complete a 100-hour placement. You will work with teams and athletes in sports such as football, rugby, athletics, hockey, netball, and more.

You will boost your employment prospects by completing the Hudl Certification in Notational Analysis during the programme. Upon graduation, you will be able to apply for the International Society of Performance Analysis of Sport (IPSAS) Level 1 accreditation.

MODULE EXAMPLES

- Principles of Human Movement and Function
- Introduction to Sport Psychology
- Introduction to Performance Analysis
- Strength and Conditioning for Performance
- Leadership and Relationships in Sport
- Applied Notational Analysis
- Sport Performance Testing and Prescription
- Applied Conditioning and Performance Analysis
- Practitioner Placement

AFTER THIS COURSE YOU COULD...

Upon successful completion, you will be able to conduct diagnostics, analyse an athlete's fitness, technical performance and tactical play, and develop exercise training programmes for improving athlete performance. This will provide access to careers in:

- Strength and conditioning
- Performance development
- Talent identification
- Sport science support
- Performance analysis

DURATION	LOCATION	UCAS POINTS	UCAS CODE	ADDITIONAL ENTRY REQUIREMENTS	ACCREDITATIONS

SPORT & EXERCISE THERAPY, BSC (HONS) TOP-UP

Looking to kickstart your career as a sport and exercise therapist? This course is designed to give you the industry knowledge, skills and employment prospects to achieve your goals and become your best.

You will become creative in your ability to restore athletes at all levels of performance – from recreational to elite – while using facilities including our on-campus rehabilitation clinic, strength and conditioning room, and biomechanics and physiology laboratories.

From early on in your studies, you will carry out placements,

with opportunities to work with professional sports teams and in sports rehabilitation clinics, fitness centres, and the NHS. You will also be able to complete a 10-day residential placement working with ultra-endurance runners in the Lake District.

Our tutors are industry professionals who will support you throughout the programme. You will boost your chances of securing your dream job by completing a range of courses and qualifications, including Rocktape and Pre-Hospital Immediate Care in Sport.

MODULE EXAMPLES

- Neurodynamics in Sport
- Professional Development and Employment
- Advanced Athlete Care
- Screening and Pre-habilitation
- Independent Investigative Project

AFTER THIS COURSE YOU COULD...

Upon successful completion, you will be accredited by the Chartered Institute in the Management of Sport and Physical Activity (CIMPSA) and British Association of Sport Rehabilitators (BASRaT). You will be able to pursue careers in:

- Professional sport clubs
- Strength and conditioning
- Private sports injury clinics
- Fitness centres
- Health clubs
- GP referral schemes
- Rehabilitation units
- Health promotion

DURATION	LOCATION	UCAS POINTS	UCAS CODE	ADDITIONAL ENTRY REQUIREMENTS	ACCREDITATIONS
1 Year (Full-Time)	Lancaster		C615	DBS check required; successful completion of a related foundation degree or higher national diploma (HND)	 

SPORT REHABILITATION, BSC (HONS)

▲ Integrated Foundation Year (IFY) Available

Do you want to positively contribute to sporting performance and public health? This course is designed to give you the industry knowledge, skills and enhanced employment prospects to kickstart your career in sport rehabilitation.

You will learn to prevent, examine and treat sports-related injuries, while practising in facilities including our rehabilitation clinic, strength and conditioning room, and biomechanics and physiology laboratories. Our tutors are industry professionals who will support you throughout the programme, including helping you to pursue your own interests.

Beyond the university setting, you will complete at least 400 hours of work experience, with opportunities to work

with professional sports teams and in sports rehabilitation clinics, fitness centres, and the NHS. You will also support ultra-endurance runners taking part in the annual Brathay 10 in 10 (10 marathons in 10 days) event.

In addition, you will enhance your CV by completing a range of courses and qualifications, including Rocktape, Pre-Hospital Immediate Care in Sport, and a Strength and Conditioning Trainer qualification endorsed by the Chartered Institute in the Management of Sport and Physical Activity (CIMPSA).

Our strong links within the industry, including with top-flight football teams, will fast-track your job hunt and set you up for success once you graduate.

MODULE EXAMPLES

- Sports Massage
- Functional Anatomy and Sports Injuries: Upper Limb and Spinal
- Exercise Techniques and Training
- Pathophysiology and Therapeutic Practice
- Strength and Conditioning for Performance
- Investigative Techniques
- Third year
- Neurodynamics in Sport
- Professional Development and Employment
- Advanced Athlete Care

AFTER THIS COURSE YOU COULD...

Upon successful completion, you will be accredited by the Chartered Institute in the Management of Sport and Physical Activity (CIMPSA) and British Association of Sport Rehabilitators (BASRaT). You will be able to pursue careers in:

- Professional sports clubs
- Strength and conditioning
- The NHS
- Ministry of Defence
- Private sports injury clinics
- Fitness centres
- GP referral schemes
- Rehabilitation units

FEES & FUNDING

When you study at the University of Cumbria, you are investing in your future. We work hard to ensure that your degree is worth every penny by helping you graduate from university career-ready.

Here's how it works:

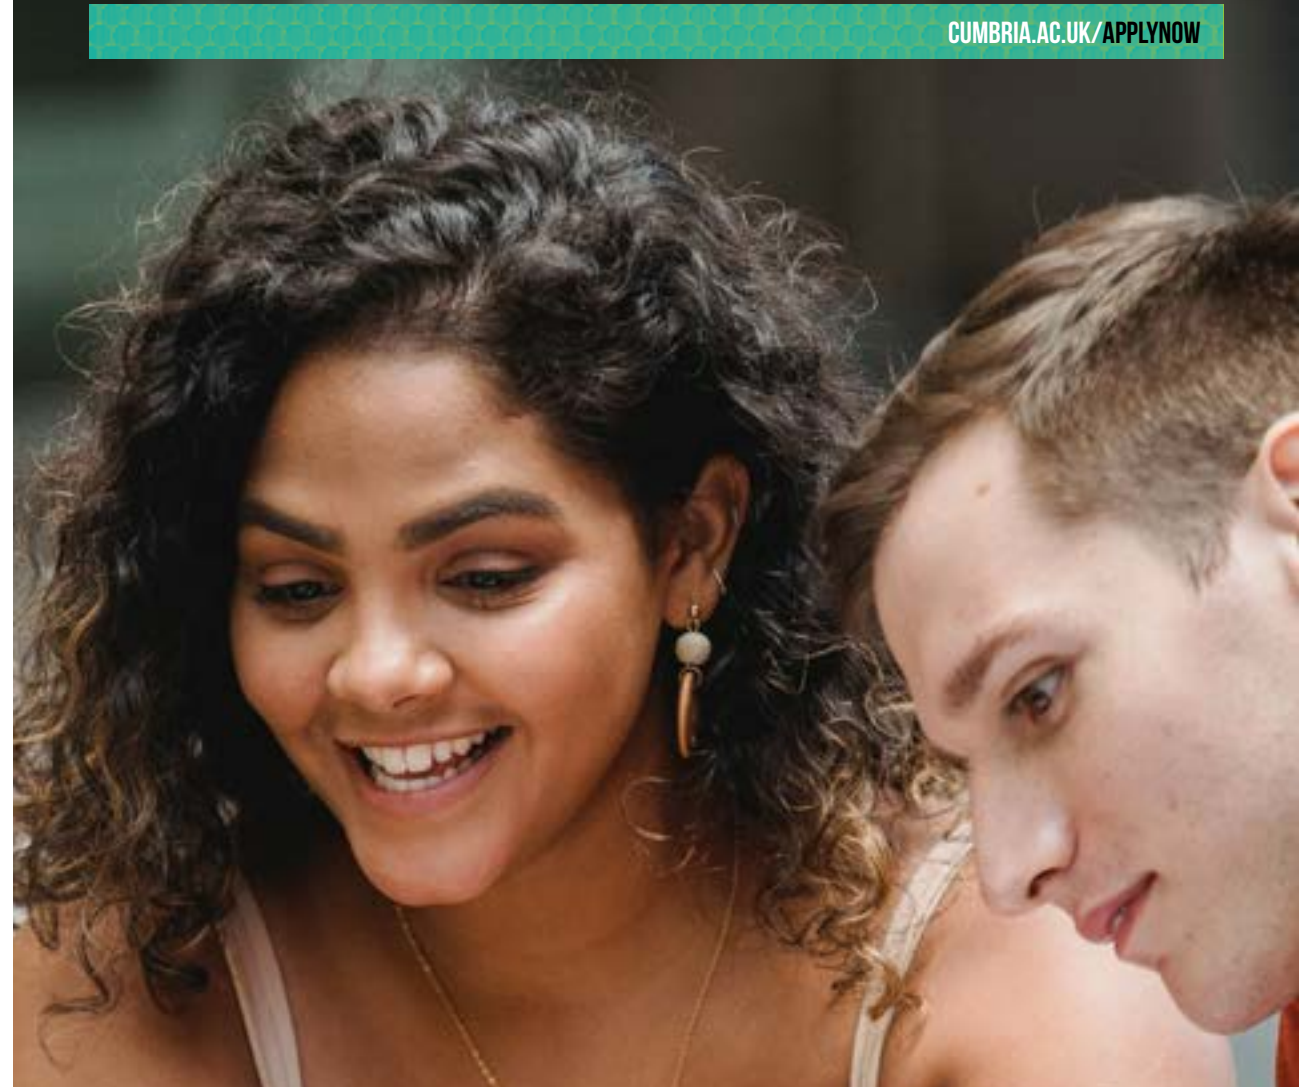

- You don't have to pay tuition fees up front. You study now and pay later. This means that repayments are based on what you earn, not what you owe.
- You only start repaying once you are earning over the repayment threshold. Even then, it comes straight out of your wage automatically, so there are no messy payment arrangements to make.
- To cover your living costs – including accommodation while you study with us – you can apply for maintenance loan support. The exact amount you receive will depend on your household income and whether you live away from home.
- There are additional grants available for students with children, dependant adults, or a disability. You can check your eligibility for these using the student finance calculator.

If you're from another part of the UK, you'll be able to access similar support.

Details of funding are published by Student Finance England and the equivalent agencies in Wales, Scotland, and Northern Ireland. You should check their websites for updates and apply online as soon as possible, as well as checking the University of Cumbria website nearer your start date for the latest information.

Maintenance loans are repaid in the same way as your tuition fees; the repayment terms and conditions may vary depending on the funding body.

For full information, go to: gov.uk/student-finance

BURSARIES & SCHOLARSHIPS

At the University of Cumbria, we think it's important that everyone has the opportunity to study, regardless of their financial background. That's why we offer a range of awards and bursaries to support you. For full information on bursaries and scholarships, see cumbria.ac.uk/bursaries

You can also contact us for further information at enquirycentre@cumbria.ac.uk or by calling 01228 588 588.

For more information on fees and finances, visit cumbria.ac.uk/study/student-finance/

HIGHER & DEGREE APPRENTICESHIPS

Enjoy the best of both worlds with a degree apprenticeship, which is a unique type of programme that combines full-time paid work with university-level study.

At the University of Cumbria, we offer apprenticeships at foundation, undergraduate, and postgraduate level; whether you're hoping to train for your dream career or want to upskill in your current role, there will be an opportunity that is right for you.

As a degree apprentice with the University of Cumbria, you will:

- Graduate with no student debt — your tuition fees are paid in full by your employer and the government.
- Be paid a full-time salary — you will earn while you learn! Enjoy all the benefits of being a full-time employee and get paid time off to study and attend classes.
- Get a full foundation, bachelor's, or postgraduate degree upon graduation. Like our students who follow the traditional route, you'll also graduate at Carlisle Cathedral.
- Graduate with quality work experience, giving you a competitive edge — our employer partners include some of the UK's most prestigious organisations as well as high-quality small and medium enterprises.
- Join a community of more than 2,200 apprentices employed by over 320 organisations across the UK.
- Gain full access to our fantastic campus services, including a wealth of support through our online platforms.

We are a key provider of apprenticeships to the public and private sectors, working hard to ensure all learners are supported to succeed.

You can apply directly to the employer if they're advertising an apprenticeship position, or you can apply online at GOV.UK.

LEARN MORE ABOUT APPRENTICESHIPS

If you already have a job, you can also encourage your employer to take you on as an apprentice.

BE GLOBAL

The Cumbria experience doesn't just spread across our campuses; we are worldwide.

People and places matter to us, which is why we aim to provide a rich and diverse student community. At Cumbria, you'll experience new cultures and different ways of thinking, making you more globally aware.

But it's not just about being part of our inclusive community; a number of our students go abroad to undertake placements, fieldwork, and projects. Spending time in other countries can really enhance your skills and knowledge, whilst also providing you with the opportunity to form new friends and forge global networks.

Some of the benefits you could experience by undertaking placements or fieldwork abroad include:

- Greater confidence and self-awareness
- Stronger communication and foreign language skills
- More resilience and the tools to lead others
- Transferable skills that help you excel in your future career

Not to mention, the opportunity to capture some awesome images of the fabulous places, people, and cultures you experience on your travels!

LOVE YOUR STORY

NICOLE
FINE ART, BA (HONS)

Of all the choices of universities within the UK that offer bachelor's degrees in fine art, I chose the University of Cumbria because of its amazing location and beautiful surroundings. The high quality of teaching and the way in which the staff care for each individual student is something that has made me feel completely at home and safe, and which you would be hard to match anywhere else in the world.

OUR LOCATIONS

SIX CAMPUSES. ONE STORY.

Spread across the North West and London, our campuses are surrounded by natural beauty, vibrant student communities, and endless career opportunities. We're also the only university in the UK to have a campus in a UNESCO World Heritage Site.

Lancaster:

Set in beautiful parkland, our Lancaster campus offers expert facilities and a friendly atmosphere. It's only a 15 minute walk from Lancaster's bustling city centre, too!

Ambleside:

Based within a National Park, our Ambleside campus provides exceptional facilities and unrivalled access to the Lake District, creating a unique student experience.

Carlisle Fusehill Street:

Offering a welcoming environment, spaces for socialising, and specialist course facilities, our Fusehill Street campus is just a 10-minute walk from the city centre.

Carlisle Brampton Road:

Home to our Creative and Media Arts programmes, Brampton Road has a friendly atmosphere and an interesting history. A creative environment, it's the perfect place for you to refine your craft.

London:

Our London campus provides the city university experience with all the perks of being on a small campus, including personalised, top-quality learning.

Barrow-in-Furness:

Set in the heart of Barrow-in-Furness, our new Barrow campus is situated in an area with a strong manufacturing engineering focus. With modern facilities and impressive employer links, it offers excellent placement opportunities.

CARLISLE

Find out more

Brimming with culture and a dynamic student scene, Carlisle is a vibrant Cumbrian city, with great restaurants, welcoming parks, and Instagrammable hidden gems. When you're not hitting the library, discover the beautiful architecture of Carlisle Castle and Cathedral, browse the city's quirky, independent shops, or catch live music and comedy at the Sands Centre.

In between lectures, our thriving city is the perfect place to discover new passions. From bouldering, swimming and hiking to axe throwing, bowling and escape rooms, there are so many ways to spend your downtime close to campus.

Carlisle's cultural calendar is studded with fun events throughout the year, too. Grab your friends and sample ales and ciders at the Carlisle Beer

Festival or enjoy live music and comedy at the Old Fire Station. The city's nightlife is plentiful, with everything from cocktail bars to pubs and clubs.

Striking the right balance of entertainment, culture, and countryside, Carlisle has everything you need to make your time at university memorable.

LANCASTER

Find out more

Lancaster is the ultimate university city, with everything you could ever need right on your doorstep. Take in the rich history at Lancaster Castle, immerse yourself in the local arts scene at the Grand Theatre, or wander the cobbled streets and discover quirky shops and quaint cafés at every turn.

Bustling markets bring a whole new level of excitement to town, with the city centre filling with delicious smells and the sounds of sizzling pans from the street food stalls. After you've sampled a new cuisine, head along the canal or venture to Williamson Park for a picturesque walk. As the sun sets, join the

buzzing student nightlife scene that's made up of numerous clubs, bars, and music venues.

For a break from the bustle of city life, the coastal resort of Morecambe Bay is just a short bus ride away. The stunning Lake District National Park is within easy reach too, so whether you want to get in touch with your adventurous side or immerse

yourself in nature, there's no shortage of new things to try or scenery to enjoy (and snap for sharing on your socials!).

With the perfect balance of city buzz and natural beauty, Lancaster has everything you need to make your university days unforgettable.

AMBLESIDE

Find out more

As the only UK university with a campus in a UNESCO World Heritage Site, our Ambleside campus offers the opportunity to study in one of the UK's most stunning locations: the Lake District National Park. Explore the breathtaking scenery, immerse yourself in the outdoors with hobbies both new and old, and up your social media game with gorgeous shots of fells, picturesque lakes, and all your outdoorsy adventures.

Whether you picture yourself paddleboarding across Lake Windermere, putting your bushcraft skills to the test on a camping trip, or hiking some of the UK's most stunning peaks, you'll truly be living your best student life in Ambleside.

But it's not just about the outdoors. After a day of exploring, you can cosy up in a café with a hot chocolate, enjoy a hearty meal at an inviting

restaurant, or grab drinks with course-mates at one of Ambleside's buzzing bars and pubs. And, for a touch of city life, the lively cities of Lancaster, Carlisle, and Preston are all within easy reach.

Join us in Ambleside for a truly unique student experience, where you'll be surrounded by unbeatable natural beauty and endless opportunities for adventure.

BARROW-IN-FURNESS

Find out more

How does hitting the beach after a day of lectures sound? Barrow-in-Furness is a historic coastal town bursting with heritage sites and miles of spectacular coastline. Gather your friends and soak up the sea views on the Walney Coastal Path, taking in beaches, rugged dunes, and salt marshes along the way.

But Barrow doesn't just have beautiful scenery. Revise your lecture notes while getting your caffeine fix at a quirky café in town, blow off some steam at the skatepark (if that's more your thing!), or get your music, theatre, and comedy fix at the Forum.

After dark, Barrow buzzes with cosy pubs, lively clubs, and cocktail bars to take your night wherever you fancy.

The stunning Lake District National Park is within easy reach too, so if you're looking to get in touch with your adventurous side, there's no shortage of

new activities to try or scenery to discover (and capture for sharing on your Insta!).

Barrow's welcoming community, stunning coastline, and exciting nightlife will make your university experience a time to remember.

LONDON

Find out more

We bring a touch of Cumbrian charm to the capital with our East London campus, which offers a cosy campus experience amidst all the hustle and bustle. Going to university is all about expanding your horizons and immersing yourself in new and exciting experiences, and where better to do that than one of the world's most dynamic cities?

Our campus is located in a diverse, multicultural area with excellent access to the rest of East London and the city. Around campus, there's a scattering of great local cafés, a traditional Victorian market, and stunning views of the London skyline.

With towering skyscrapers, impressive waterways, and over 300 shops, bars, and eateries, there will always be something exciting to see and do just around the corner from your lectures. Our welcoming campus environment in the heart of East London will make you feel at home in the capital.

RESEARCH AND KNOWLEDGE EXCHANGE INFORMED TEACHING

The cutting-edge research conducted here at the University of Cumbria tackles some of the biggest challenges facing society across sustainability, wellbeing, health, and social justice, and has positive impact(s) across our region. Our curriculum is informed and enriched by the excellent research and knowledge exchange activities led by our academics.

Our academics are leading researchers, who regularly work with our students on these challenges. Our recent 'Geoweeek' project, hosted by the university's Institute of Education, Arts and Society and funded by Research England to explore geology and the Cumbrian landscape, included creative contributions from our students and formed part of a symposium and exhibition open to the public.

Physiotherapy students have presented their research alongside their course tutors at the Chartered Society of Physiotherapy Annual Conference in Birmingham, showcasing their focus on practice-oriented investigation as well as the continued support for students as emerging healthcare practitioners.

Research interns played a key part in our Eco I North West knowledge exchange project, supporting Cumbrian businesses with carbon

reduction innovation, including building design for heat capture and carbon auditing for a vegan gelato business.

The Centre for Research in Health and Society (CRIHS), which is part of our Institute of Health, produces internationally excellent impact, including research that has improved the accuracy of image interpretation in clinical practice and informed the training of medical imaging students. The Centre for National Parks & Protected Areas, together with the Learning, Education and Development Research Centre, conducts world-leading outdoor learning and human-nature relations research. The Institute of Business, Industry and Leadership carries out research recognised as internationally excellent and specialises in areas including sustainable tourism, project management, and leadership.

54% of our research impact is rated as internationally excellent, ensuring that our students learn and develop their careers whilst working alongside academics who make a positive difference to society.

Our research is a key part of our mission at Cumbria; to inspire and equip our students, communities and environment with the resources they need to thrive.

THE SMALL PRINT

Disclaimer

This prospectus aims to answer your questions about life and academic provision on offer at the University of Cumbria and every effort has been taken to ensure the prospectus is accurate at the time of printing. You are encouraged to check the website before applying as this will contain the latest information on the University of Cumbria and the courses that we offer.

In exceptional circumstances, it can be necessary to make changes to programmes and provision advertised (for example to meet a Professional Body's changing requirements). In such instances the university will take all reasonable steps to minimise disruption and we will ensure that applicants are notified of any material changes as early as possible.

There may be occasions when the University withdraws or suspends recruitment to a course. In such circumstances, the university will advise applicants as early as possible, including suitable alternative options that may be available.

For a complete list of courses currently on offer from the University of Cumbria, please check our website www.cumbria.ac.uk

Contextual data and information

We recognise that not everyone has the same educational journey and that some students have to overcome challenges to achieve their grades, which is why we use contextual admissions to make sure that we are accessible to everyone who has the potential to succeed. Qualifications and grades are important, but they will be considered alongside other information, such as caring responsibilities and where an applicant lives, during our offer making. Individuals that have extenuating circumstances which have impacted on their educational journey will also receive special consideration.

More information about our use of contextual information can be found at www.cumbria.ac.uk/applicants/entry-requirements

Our mission and ethics

As part of our ongoing commitment to sustainability, we have signed up to take part in an exciting programme led by the National Union of Students.

Green Impact Scheme

Green Impact Universities and Colleges is an environmental accreditation scheme which helps people improve their working environments and positively impact the lives of their students whilst gaining recognition for their efforts. The scheme has worked with more than 50 universities and colleges, over 100 Students' Unions, and ever-increasing numbers of community organisations.

Waste and Recycling

The University of Cumbria is dedicated to substantially decreasing the amount of waste it sends to landfill by reducing waste, reusing where possible, and recycling when necessary.

We aim to divert over 90% of our waste from landfill. To achieve this, we encourage all our students and staff to be conscientious about recycling during their time at the university.

To support our environmental target, we are pleased to be working with a local business, Cumbria Waste Group, for our main site waste management services. CWG were appointed to help improve the amount of waste being recycled by separating at source. The university now segregates into three streams – paper & card, co-mingled (plastic, tins & glass), and non-recyclable.

CWG is responsible for emptying over 100 bins each week across our four main campus sites in Carlisle, Lancaster, and Ambleside.

The University of Cumbria is a licensed waste carrier. Our licence number is CBDL135305.

This allows us to carry waste directly to waste recycling or disposal sites, or between our main campus and ancillary sites.
